THE REDNOCK REVIEW

Term 1 – 2026/27

23rd October 2026

Click here to view a video from Mr Stratford

Dear Rednock Community,

As we reach the end of Term 1, I want to extend my thanks for your continued support. It has been a long and busy term and I know both our students and staff are looking forward to a well-deserved break!

It has also been a term full of achievements and celebrations, which we've loved sharing with you through our Rednock Reviews. The end of term is always a great time to reflect and I am particularly proud of how brilliantly our students have adapted to our new mobile phone pouch routines. They have embraced the change, which has made a noticeable, positive difference across the school. What stands out most to me each day is how our students make Rednock such a special place through their positive attitudes, hard work and everyday enthusiasm.

A huge thank you to everyone who joined us for our 'Meet the Tutor' evening on Thursday 15th October. It was wonderful to see so many parents and students connecting with our staff and the fantastic turnout at our 'Rednock Connects' event showed just how strong and supportive our wider school community is.

In this final edition of the Rednock Review for Term 1, you'll find key updates on upcoming events and local community opportunities available over the half-term break.

Most importantly, it highlights many of the remarkable achievements that make us so proud. Reading through it is a lovely reminder of what makes Rednock unique: the energy and talents of our students, the dedication of our staff and the strong partnership we share with our community.

I hope our students, staff and families all take time over the break to rest, recharge and enjoy time together.

We look forward to welcoming everyone back on Monday 2nd November, normal school timings apply. To help us get off to a smooth start, please ensure your child returns in full uniform, fully equipped with their pencil case, reading book and learning essentials for a Monday Week A.

Wishing you and your family a happy, restful and safe half-term break!

My very best wishes,

Mike Stratford
Headteacher

Rednock School
Where everyone matters

Achievement Heroes

Each week, we select new Achievement Heroes to celebrate. We've had some amazing nominees and we're proud of everything they've accomplished.

They were recognised for different reasons, each one just as impressive as the last.

Every nominee exemplifies what it means to be an Achievement Hero and we couldn’t be prouder to shine a spotlight on their accomplishments.

This issue’s Achievement Heroes are:

Emmy, for being rewarded 121 reward points so far this year.
Amber, for showing fantastic resilience and commitment to school.
Liv, for supporting a Year 7 student in her tutor group and showing exceptional kindness.
Fergus, for volunteering to assist for 4 hours on a Saturday with Oxstalls' Primary School Open Day.
Noah, for running the Cardiff half-marathon in aid of NSPCC.
Connor, for taking time out of his lunchbreak to help a staff member look for something lost by another student.
Daisy, for her fantastic performance at a Cross-Country pony riding event at the weekend.
Ellie, for always pushing herself to be the best version of herself.
Evie, for striving to be the best version of herself, getting involved in Drama Club and reading so many books.

Teaching and Learning Focus – Supporting Literacy in History

The History department are continually looking for ways to support our students in becoming confident and effective readers. As part of the whole-school approach to developing literacy, the SEEC model has been introduced across all subjects to support students with their understanding of subject-specific vocabulary. The History department has embraced and adapted this approach effectively within the subject, helping students to build confidence in understanding and using more challenging vocabulary.

SEEC stands for Select, Explain, Explore and Consolidate. In History, this approach is used to introduce the key vocabulary that students need to access and understand each topic. History contains a wide range of subject-specific terminology and developing students' understanding of this vocabulary is an important part of helping them to make sense of the past.

During the Consolidate stage, students are often asked to apply new vocabulary to a familiar context. This helps them to secure their understanding of a word before applying it to the historical context they are studying. Through the SEEC approach, students regularly encounter and apply this vocabulary in context, helping them to understand not only what these words mean, but also how they are used when thinking and communicating like a historian.

At the end of a topic, students complete a revision home-learning activity which revisits the key vocabulary they have encountered. This is then used as the basis for testing students' knowledge and understanding, allowing them to recall and apply the vocabulary independently.

The approach has become an important part of how the team support literacy within History, while also contributing to the wider whole-school focus on developing confident readers and writers.

A Message From Our New SENDCo

As I approach the end of my first term as the new SENDCo at Rednock School, I would like to take this opportunity to thank our school community for the incredibly warm welcome I have received. It has been a genuine pleasure to meet so many wonderful students and to be so well supported by colleagues as I settle into the role. In this short space of time, I have also had the privilege of meeting a number of supportive parents and carers and I look forward to building many more positive relationships in the months ahead.

As education begins to turn its attention towards the upcoming SEND reforms and the national inclusion agenda, this is an exciting time for our community. We have a valuable opportunity to reflect on what inclusion should look and feel like at Rednock School and how we can continue to ensure that every child feels valued, supported and able to thrive.

I am very much looking forward to working alongside students, families and colleagues as we continue that journey together and to meeting many more of you over the coming terms.

Wishing you all a lovely half-term.

Sally Easton

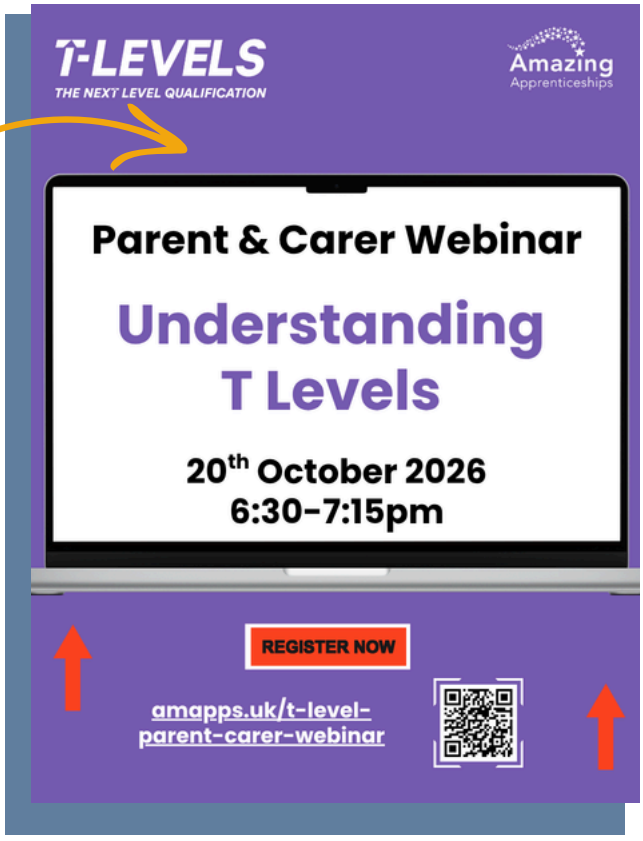
SENDCo
Associate Assistant Headteacher

CAREERS CORNER

T-LEVEL QUALIFICATIONS EXPLAINED

Amazing Apprenticeships will soon be hosting a dedicated webinar for parents and carers to help them understand T-Levels, including what they involve, how they differ from other post-16 options and the progression opportunities they can lead to.

Even though Rednock doesn't offer T-Levels, inviting our parents and carers to join this webinar supports them accessing clear, impartial information about technical education pathways young people can explore.



Norway

An amazing group of 40 sixth-formers has returned from the beautiful country of Norway, full of wonderful memories and unforgettable experiences. From walking on a glacier and cruising through a fjord to admiring spectacular waterfalls and exploring Bergen, the trip was packed with adventure, discovery, and the joy of strengthening old friendships and making new ones.

Before we hear about their experiences, I would like to express my sincere thanks to our admin and finance teams for their incredible support in helping organise the trip.

A huge thank you also goes to Mr McCarthy, Mr Sykes, and Mrs Perry-Gough for everything they did. You truly are a dream team!

I am equally grateful to all the families who supported us every step of the way, ensuring that students had the right clothing and plenty of snacks to keep them going.

Last but certainly not least, my heartfelt thanks go to our 40 students. You have been absolutely amazing and a real joy to be with. Your enthusiasm, positivity, and camaraderie helped make this trip such a special experience for everyone.

Ms Ventura

"The Norway trip was a once in a life time experience from walking across a glacier to exploring nature in its fullest and traveling up the fjords. The views were amazing and I loved every minute in such a beautiful country. What an amazing experience!"

"I had an amazing time full of beautiful views. It was the best experience I have had in my life and this trip will never be forgotten."

“I found the trip very interesting and mind opening, the landscapes are so pretty and picturesque. I had such a good time and made new friends, I really enjoyed Norway!”

“The Norway trip was a great experience from climbing across on a soon to be gone glacier to evening card games and camp fires. We had great laughs and the views were beautiful.”

Bronze Duke of Edinburgh's Award Assessed Expedition

Our students put their teamwork, navigation and resilience to the test this weekend as they took part in their Bronze Duke of Edinburgh's Award assessed expedition.

Setting off from Redbrook on Saturday morning, they carried the equipment and supplies they needed for two days outdoors. They followed their route to Biblins Youth Campsite, where they set up camp and spent the night before packing up and continuing their expedition on Sunday. Their journey finished at Beechenhurst.

The expedition was a chance for students to put their preparation into practice. They had to navigate as a team, manage their equipment and work together throughout the journey. Camping overnight also gave them the opportunity to show their independence and take responsibility for their group.

Completing an assessed expedition takes determination and cooperation. We are proud of the effort our students put in and the way they supported one another. Thank you to the staff who helped make the weekend possible and to Wiltshire Outdoor Learning Team (WOLT), for running the expedition.

What happens next?

WOLT will complete the expedition assessors' reports over the next few weeks. Students should also make sure they have an assessor to complete their volunteering, physical and skills sections. Assessors cannot be family members.

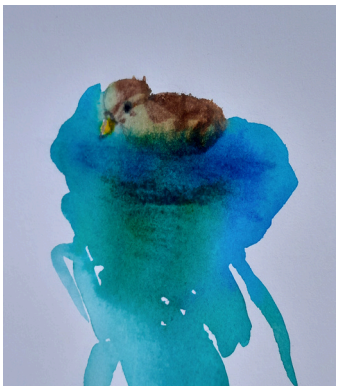
Mr Antonious runs a weekly DofE drop-in session on Wednesdays at lunchtime in Room 122. Students are welcome to come along for help and support with completing and signing off their award.

Students interested in joining Bronze, Silver or Gold DofE in 2026–27 should look out for further information. More details will be shared after half-term.

Creativity and Inspiration at Slimbridge Wetlands Centre

Earlier this term, Rednock students were invited to take part in an exciting three-day programme to explore creativity and self-expression drawn from the peace and beauty of Slimbridge and the creatures that live there.

Based on three inspirational books: The Lost Words, The Book of Birds and The Lost Spells, our students took part in three workshops. Each workshop was led by members of the Slimbridge Education team or associated experts. In the first one, they explored different types of poetry to express how they felt about the many different types of bird they could see in the aviary. The second gave them the opportunity to draw, or print, what they could see in one of the large, open lakes in front of the Centre.



The third workshop invited them to try making a rap about any of the creatures found in the wetlands around Slimbridge. Despite some initial nervousness, it wasn't long before they entered fully into the spirit of things!

The Slimbridge staff and workshop leaders have been genuinely impressed by the high quality and thoughtfulness of the work our students have produced, while Rednock staff have watched the students grow in confidence and self-esteem while, at the same time, thoroughly enjoying getting out and about in nature.

We have one more visit to go next term when our students will get the chance to perform or exhibit any of their pieces if they would like to.

Rednock students are pictured here with Peter, whose kind donation in memory of his late wife Myra, helped to make the 'For love of Nature' project possible.

Rednock Connects - Community Information Evening

A huge thank you to everyone who visited our Rednock Connects - Community Information Evening on Thursday 15th October. It was a wonderful evening, with a real buzz in the Dining Hall!

It was fantastic to bring together so many local groups and organisations, giving students and their families the chance to discover the clubs, activities, opportunities and services available in our local community.

We were delighted to see so many people stopping to chat, ask questions and find out more about what's happening locally. The evening also included our pre-loved uniform sale and our volunteers were run off their feet with sales.

Thank you to all the organisations who joined us and to the families who took the time to come along. Your enthusiasm helped make the evening such a success and we look forward to bringing our community together again next year.

Year 10 Boys Football Team Fight Back

The Year 10 boys football team (left) produced an impressive comeback on Tuesday 13th October to secure a 3–2 victory against Wellsway School in the second round of the National Cup.

After a difficult first half, the boys found themselves 2–0 down. However, they showed great determination and character to turn the game around in the second half, scoring three goals to seal a fantastic win.

Goals from Harry, Jimmy and Henry completed the comeback and secured Rednock's place in the third round of the National Cup.

Well done to the whole team on a brilliant result!

Year 11 Boys Football

The Year 11 boys football team (right) secured an impressive 4–1 victory against Wellsway School from Bath in the second round of the National Cup.

After a closely contested first half, which ended 0–0, the boys raised the tempo after the break and took control of the game to secure a fantastic win.

Ollie led the scoring with two goals, joined by Jude and Jacob on the scoresheet.

Netball Take on Archway

Our netball teams (left) recently took on Archway, with some great efforts across all three year groups despite missing a few key players in each team.

Year 11 narrowly lost 18–16 in a closely contested match, while Year 10 faced a tough challenge, losing 38–21. Year 9 battled hard to secure an exciting 18–18 draw.

Well done to all the players for their determination and teamwork!

Creativity Behind the Scenes in Drama

This term, our Year 8 and Year 9 Drama students have been exploring different aspects of theatre design, developing their creativity and discovering how visual elements help bring performances to life.

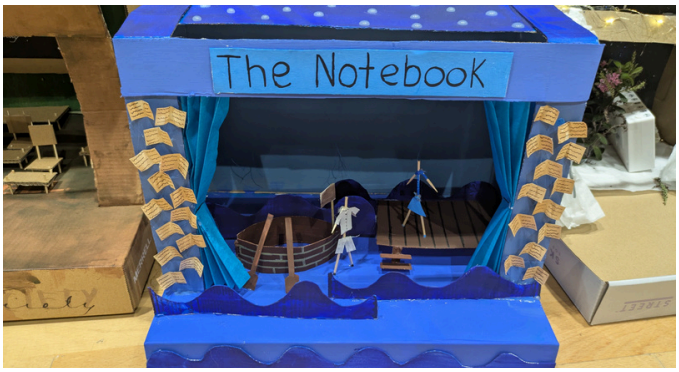
Year 8: Commedia dell'Arte and Masks
Year 8 have been studying Commedia dell'Arte, a traditional Italian style of theatre known for its stock characters, exaggerated physical comedy and distinctive masks. Students have explored how masks are used to communicate character, personality and emotion, considering how performers use physical expression and movement to bring these characters to life.

Year 9: Set Design
Year 9 have been investigating the world of set design, exploring how designers use space, materials, colour and structure to create the setting for a performance. They have considered how a stage environment can establish location, create atmosphere and support storytelling, developing their understanding of the important role played by designers in theatre.

We have been delighted to receive some fantastic Home Learning Tasks, showcasing the imagination and creativity of our students. It is wonderful to see them applying their classroom learning independently and developing their ideas beyond the Drama studio.

Take a look at some of the work we have received below.

Well done to everyone who has taken the time to complete and submit their work. We look forward to seeing even more creativity from our young theatre-makers.



STEM Day

On the 13th October a team of Year 12 students planned and delivered a fantastic workshop as part of a STEM day held at Wycliffe College. The day is held annually and hosts around 400 primary school students from 12 of our local primary schools. The team delivered the sessions with confidence and this year chose to offer an egg drop challenge. Pupils were given a set of materials and had to protect an egg from smashing. There may have been a few breakages along the way but all of the pupils enjoyed the experience.

Our sixth formers were fantastic ambassadors for Rednock and we were proud of their efforts! We have been invited back again next year and look forward to coming up with another new workshop.

Rednock vs Stroud High School

Our Year 9 and Year 10 netball teams enjoyed fantastic victories against local rivals Stroud High School in two closely contested matches.

Year 9 showed great determination after losing the first quarter 4–6, battling back to secure an impressive 22–19 win. Thank you to Sophie for stepping in to play.

Year 10 also delivered an excellent performance, demonstrating strength in both attack and defence. Phoebe and Lily formed an effective defensive partnership, making it increasingly difficult for Stroud High School to get the ball into their shooting circle.

Both teams showed real grit, determination and teamwork, making it a fantastic set of results for Rednock netball.

A Fantastic Day at Horse of the Year Show

On Friday 9th October, our students enjoyed a fantastic trip to the Horse of the Year Show at the NEC. Students had the exciting opportunity to meet legendary showjumper John Whitaker, watch brilliant international showjumping and enjoy a variety of spectacular horse displays. It was a wonderful day filled with impressive performances, beautiful horses and plenty of equestrian excitement.

Everyone had a brilliant time and we look forward to organising more exciting equestrian trips in the future.

Sixth Form Sport Students Shine at Football Tournament

On Wednesday 21st October, our brilliant Sixth Form Sport Studies students organised, led and coached a Year 6 girls' football tournament for primary schools in the local area.

Despite the wind, rain and cold weather, everyone had a fantastic time. The girls showed great enthusiasm on the pitch, while parents and teachers cheered them on from the sidelines.

The event was a great opportunity for our Sixth Formers to put their leadership, organisation and coaching skills into practice.

A massive well done to all our Sixth Formers for their hard work and commitment in making the tournament such a success.

Sixth Form Boys Football

The first of many Year 12 versus Year 13 football fixtures got off to an exciting start, with Year 13 coming out on top with a clinical 4–1 win.

Both teams took to the pitch ready to compete, but Year 13 proved too strong on the day, securing a convincing victory and making an impressive start to this year's Sixth Form football rivalry.

With plenty more matches to come, we look forward to seeing how the competition unfolds.

Netball: Year 7 and 8 Make Their Debut

Our Year 7 (bottom left) and Year 8 (bottom right) netball teams played their first matches of the season, getting the year off to a great start. Both teams put in a fantastic effort, showing enthusiasm, determination and great teamwork on the court. It was a valuable opportunity to gain match experience, build confidence and put their skills into practice.

Well done to everyone who took part and we look forward to seeing how both teams progress throughout the year.

Year 8 Girls Get EmPowered

Robotic cars, escape rooms, coding challenges and plenty of puzzles!

Rednock students enjoyed an action-packed visit to EmPower at the University of Gloucestershire's Oxstalls Sports Arena on Friday 16th October, discovering the exciting world of digital technology.

Organised by CyNam and Tech First South West, EmPower is an interactive event designed to inspire young people to explore careers in technology and aims to challenge stereotypes, build confidence and show young people the wide range of opportunities available in the technology sector.

There was plenty to get involved in, with students tackling escape rooms, solving puzzles and programming miniature robotic cars. Each activity required a combination of logical thinking, perseverance, careful observation and problem-solving.

"I learnt about lots of different jobs like coding as well as engineering cyber."
"I learnt how fun coding can be!"

Activity providers included organisations such as QinetiQ, the NHS, IBM, the National Cyber Security Centre, Gloucestershire Constabulary, the University of Gloucestershire and Gloucestershire College. The students also enjoyed the friendly atmosphere, meeting new people and, as several were keen to point out, collecting plenty of freebies!

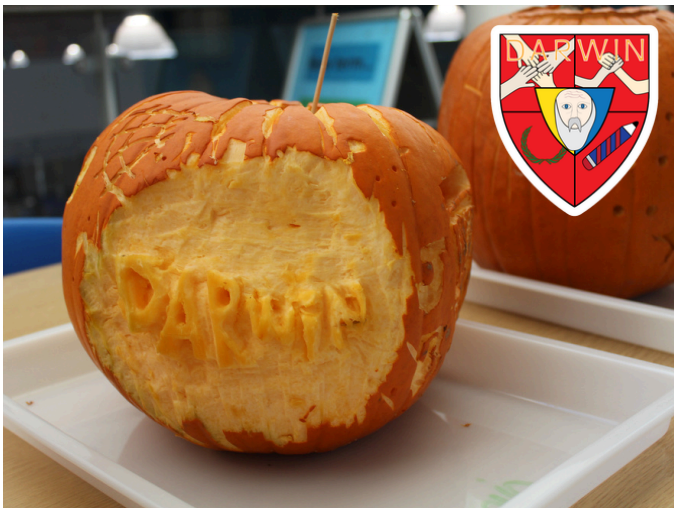
The journey home provided another highlight, with everyone singing along to different songs on the bus.

"It was really fun and I hope we can go back again."
"All the people there were really positive."

The visit gave students the opportunity to connect their learning in school with real-world careers. Whether their interests lie in science, engineering, healthcare, computing or something completely different, the day showed how technology can open doors across many career areas.

Pumpkin Carving

It's that time of year again when we have our community pumpkin carving competition. The students worked hard on their designs and a winning design was chosen per community. These were then carefully carved into their pumpkins ready for the final judging. The Senior Leadership Team had a hard time judging this year as all of the pumpkins were amazing but the winner was announced to be Brunel! (top right)



Dates for your Diary

Date	Year Group	Event
02/11/2026	All	Term 2 Begins - Week A
11/11/2026	All	Rememberance Service

Student Drop-off and Pick-up

Now that our Year 7 students have had time to settle into school routines, we would like to remind all parents and carers of our drop-off and pick-up arrangements to help keep everyone safe and traffic flowing smoothly around the school site.

Please do not drop off or pick up students in the front car park at the beginning and end of the school day, even in poor weather. At busy times, queues can quickly build up and back onto Kingshill Road, causing congestion and creating potential safety risks for students walking into school.

Instead, please arrange to drop off and collect your child at the rear car park or away from the school site, in a safe and convenient location, whilst being respectful of the local residents and access to their properties. This helps reduce the number of vehicles entering the school site and keeps traffic moving.

Please also remember:

- Do not park or wait in the school bus layby, as this must remain clear for buses.
- Always keep disabled parking bays available for vehicles transporting our students who require wheelchair access.
- If your child arrives late and is being dropped off between 8:40am and 9:05am, during tutor time, please use the rear car park by the Community Centre, where a member of staff will be on duty to sign them in.

Thank you for your cooperation. By working together and following these arrangements, we can help keep our school site and surrounding roads safe for students, staff and the wider community.

LOST PROPERTY

All lost property collected over the term will be placed on tables in the reception area of the school during half term, 9am-3pm each day.

If your student has misplaced something this term, please feel free to come and have a look!

Coming to the Canteen in Term 2!

NEW MENU BIG FLAVOURS GREAT VALUE
