

At Bamburgh School our vision is that pupils will develop the **independence** that they need to lead fulfilling lives by knowing and achieving more throughout their educational journey. This vision underpins the curriculum offer in every subject, and informs our over-arching curriculum intent: to empower pupils **to understand and interact positively** with the world around them. The four elements which constitute our school motto (**aspiration, commitment, good manners and enjoyment**) are regularly re-inforced by staff and well-understood by pupils - providing them with an easily accessible route map to success.

IT Curriculum Intent

At Bamburgh School, we aim to **prepare our learners for their future** by giving them the **opportunities to gain knowledge and develop skills that will equip them for an ever changing digital world.**

Knowledge and understanding of ICT is of **increasing importance for children's future both at home and for employment.** Our IT curriculum focuses on a progression of skills in **digital literacy, computer science, information technology and online safety** to ensure that **pupils become competent in safely using, as well as understanding, technology.** These strands are revisited repeatedly through a range of themes during children's time in school **to ensure the learning is embedded and skills are successfully developed.**

Our intention is that IT also **supports children's creativity** and cross curricular learning to engage children and enrich their experiences **both in and out of school.**
