

## Assessment pieces that will be used as evidence to determine Teacher Assessed Grades for Summer 2021

### Introduction:

This document gives details of the assessments that will be used to determine Year 11 students' Teacher Assessed Grades in each subject this academic year. Please see the [JCQ guidance](#) for more detail on how this evidence will be used.

The level of control is related to the conditions in which the assessment piece was completed where:

- High Level of Control is completed under exam conditions in a classroom or central venue
- Medium Level of Control is completed in a classroom and at home e.g. coursework with close teacher supervision
- Low Level of Control is completed independently by the student and requires authentication of students' work

If you think that you or your child's performance in an assessment has been affected by temporary illness or personal circumstances, then you should complete a [special consideration form](#) as soon as possible. The school will consider the circumstances and if satisfied that they had an adverse effect, will take this into account by adopting the principles in the JCQ guidance. Please refer to [this document](#) to see what counts as a special consideration.

The full details of the school's centre policy with respect to GCSEs for Summer 2021 can be found [here](#).
