

## PROMPTER

You are allowed to have an adult to prompt you if you lose concentration. This may be the invigilator.

They will help you to keep focused on the exam by:

Tapping:

- The table
- Your arm

Saying:

- Your name
- "focus on the question"
- "there are x minutes left"

Showing you:

- A flashcard with the above instruction

The prompter can NOT:

- Speak to you, except to say your name or one of the above instructions
- Advise you on which question to choose
- Tell you in which order to do the questions
