2. Consider the controversial debate regarding capital punishment, with reference to the following questions:-
 - a. When was capital punishment abolished in this country and which Act of Parliament was responsible?
 - b. Discuss your feelings regarding capital punishment ... would you like to see it re-introduced or do you see it as a barbaric and out-dated form of justice?
 - c. Using the internet, research the cases of Derek Bentley and Ruth Ellis. Explain whether or not your original opinions regarding capital punishment have changed as a result of your research.

Be prepared to discuss these points with others at a convenient point in the early part of the course.
