

## A level Media Studies Summer Transition Task

What is your favourite ever music video?

Over the summer holidays use your mobile 'phone or a video camera to make your own version of the same music video.

Edit it on a PC, laptop or tablet then upload it to YouTube. You only have to make 1 minute of the music video – you can make it longer if you want.

I will ask for a link to your video in our first lesson in September.

*IMPORTANT: have fun + show me your skills!*
