Dear Parent / Carer

RE: GCSE SCIENCE REVISION GUIDES

In order to support your child's learning and progress in their GCSE Science course we are recommending revision guides for year 9 students to purchase.

The revision guide/s cover the entire KS4 course (year 9, 10 and 11 study) and are a **key resource** for homework tasks, end of module revision and of course revision before the final exams.

If your child is entitled to the Pupil Premium Grant these books (or book) can be paid for by the school.

There are essentially two different paths for Science GCSE; Separate Science or Combined Science. If you think that your child is likely to opt for Separate Science GCSEs then you will need to buy the 3 GCSE AQA Biology, Chemistry and Physics books. If you think your child is more likely **not** to select separate science GCSEs then they will, by default, follow the Combined Science course and will need a single Combined Science revision guide.

If you are not really sure what your child is likely to opt for, then provided the books are in good condition and have not been written in, we can swap them once your child's option choice has been confirmed later in year 9.

A link of where to purchase the book is as follows:

Combined Science route (one revision guide required)

[GCSE AQA Combined Science Foundation](#) £9.95 (if your child's target grade is 4 or lower we recommend this)
or

[GCSE AQA Combined Science Higher](#) £9.95 (if your child's target grade is 5 or higher we recommend this)

Separate Science route (3 separate revision guides required)

[GCSE AQA Physics Higher](#) £5.95

[GCSE AQA Chemistry Higher](#) £5.95

[GCSE AQA Biology Higher](#) £5.95

Please note that the above links are to the publishers (CGP) website shop. You may be able to find a better deal elsewhere on Amazon for example, so it is worth shopping around.

Any questions then please just get in touch - msmith@langtreeschool.com

Yours sincerely,

Mark Smith (Head of Science)
