

Teaching Assistant

Contract type: **Permanent**

Hours: **30 per week (across 5 days) term time only**

Scale: **Grade 4 Pay point 4 - 5 (£25,185 - £25,584 pro rata) Actual - £17,075 - £17,345, Pay award pending**

Commences: **1st September 2026**

We are looking for an enthusiastic and dedicated Teaching Assistant to join our vibrant school community. In this rewarding role, you will work closely with class teachers to inspire our students, helping them to flourish and achieve their full potential. You will provide tailored support to individuals and small groups, ensuring every student can access our exciting curriculum and experience a true sense of accomplishment. Previous classroom experience is highly valued, but more importantly, you will bring strong interpersonal skills and a passionate commitment to student growth. Whether working as part of our supportive team or using your own initiative, you will play a vital role in ensuring the safety and inclusion of all students, including those with special educational needs. If you are eager to make a difference and grow within our school, we provide bespoke training and would love to hear from you!

Langtree is a thriving, oversubscribed 11-16 school nestled in the beautiful South Oxfordshire countryside between Oxford and Reading, our school offers a stunning environment for both staff and students. We are easily accessible via direct bus links from Caversham, Reading, and Wallingford. Our academic results are amongst the best in the area and we are proud that Ofsted has recognized our students' personal development, behaviour and attitudes as outstanding.

The Langtree School Academy Trust Limited is deeply committed to safeguarding and promoting the welfare of children and young people; we expect all staff to share this vital commitment. Our recruitment process is designed to reflect these values, and successful candidates will undergo an enhanced Disclosure and Barring Service (DBS) check alongside other standard employment verifications. To apply, please complete the official Langtree School application form, as we are unable to accept CVs. You can find full details and application materials on our website at www.langtreeschool.com/vacancies. If you have any questions or would like to visit our school, please reach out to the Headteacher's PA at mtaylorlane@langtreeschool.com or call 01491 220153. We look forward to meeting you!

For further information see the [job description and person specification](#).

Applications can only be accepted on a fully completed Langtree School application form.

Closing date for applications is Wednesday 7th July 2026

All applications will be considered on receipt.

Opportunity to borrow a telescope!

Due to the efforts of the PTA, the science department has managed to secure funding to purchase an entry level telescope. We would like to give students the opportunity to borrow the telescope for a week so that they can be inspired to look at the stars.

The telescope would obviously need to be taken good care of, returned on time and in the same condition as it was when it was received.

All safety instructions would also need to be followed which can be found in the booklet that comes with it.

If your child would like to register an expression of interest in borrowing the telescope please ask them to do so by contacting Mr Brown via email: kbrown@langtreeschool.com

Yours sincerely

Silver STEM Futures: University Pathway

STEM Futures: University Pathway (previously known as Virtual Insight into University) is a comprehensive virtual experience that helps students explore STEM degrees, apprenticeships, and related careers. It offers access to university life, STEM projects from top UK universities and global companies, first-year lectures, and live sessions with academics, admissions tutors, apprentices, employers, and current students.

"I absolutely loved the course. It has helped me discover my true passion, and love which I hope to pursue in the future."

Course topics

- Hear from STEM professionals at top UK companies, from early-career apprentices to senior leaders and recruiters, about their journeys, inspirations, and projects.
- Join exclusive live Q&A sessions with STEM professionals, admissions officers, students, and professors in a supportive environment.
- Get expert advice on university applications, interviews, admissions tests, student finance, and support services.
- Take part in hands-on STEM activities like bridge building, creating an academic poster, and flight experiments.

100%

of students increased their awareness of STEM opportunities available to them

92%

of students felt the skills and knowledge gained from the course would have a positive impact on their future studies or career.

Course requirements and registering your interest

This course is open to all students aged 16+ who have a genuine interest in STEM subjects and is suitable for all abilities. To apply, please visit our website [here](#).

A

Online Grooming is when someone befriends and builds an emotional relationship with a child and communicates with them through the internet with the intent to commit a sexual offence. This type of victimisation can take place across any platform; from social media and messaging apps to online gaming and live streaming. Often it involves young people being tricked, forced or pressured into doing something they wouldn't normally do (coercion) and often the groomer's goal is to meet the victim in a controlled setting to sexually or physically abuse them. In some cases children may be abducted or have long-lasting psychological damage.

What parents need to know about

ONLINE GROOMING

CHILDREN ARE MOST VULNERABLE

Unsurprisingly children are often most at risk as they are easy to target and unlikely to question the person who is engaging in conversation with them. Groomers will use psychological tricks and methods to try and isolate them from their families and friends and will often choose to target more vulnerable children who may be easier to manipulate. Predators will stalk apps and websites that are popular with young people and will use a 'scattergun' approach to find victims, contacting hundreds online to increase their chances of success.

LIVE STREAMING CONCERNS

Predators may use live video to target children in real-time using tricks, dares or built-in gifts to manipulate them. Grooming often takes the form of a game where children receive 'likes' or even money for performing sexual acts. Social media channels, such as YouTube, Facebook, Instagram and Snapchat, all have live streaming capabilities, but there are many apps which children can use to live stream, including Omegle, Live.me, BIGO Live, YouNow and many more.

ANYONE CAN BE A PREDATOR

The internet has made the ability to interact with strangers online easy. Many sites and apps are reliant on individual users entering their own information when signing up. However individuals can remain anonymous if they choose to enter inaccurate information and many online predator cases are due to groomers using impersonation techniques. However, often the greater threat comes from adults who 'hide in plain sight', choosing to befriend young children without hiding their real identity.

CAN BE DIFFICULT TO DETECT

Unfortunately, most children find the 'grooming' process (before any meeting) an enjoyable one as the predator will compliment, encourage, and flatter them to gain their trust, friendship and curiosity – a wolf in sheep's clothing scenario. This often means children fail to disclose or report what is happening. If the groomer is also previously known to the child, their family and their friends, then this can make detection even harder.

FROM OPEN TO CLOSED MESSAGING

Online predators may contact their victims using any number of ways including social media, forums, chat rooms, gaming communities or live streaming apps. Sometimes there is little need to develop a 'friendship' or 'rapport' stage, as the victim has already shared personal information online and is communicating openly with others. Children may also be prepared to add other online users they don't know so well to gain 'online credibility' through increasing their friends list. Predators will often seize this opportunity to slowly build a relationship and then move their conversation with the child to a more secure and private area, such as through direct messaging.

EMOTIONAL ATTACHMENTS

Online predators will use emotive language and aim to form close, trusted bonds with their victims through showering them with compliments and making them feel good about themselves. Often victims will refer to them as their 'boyfriends' or 'girlfriends' and it can be difficult to convince some young people that they have been groomed, often leading to lasting psychological effects.

Safety Tips for Parents & Carers

IT'S GOOD TO TALK

It's unlikely that you can stop your child using the internet, nor can you constantly monitor their online activities, but you can talk to your child on a regular basis about what they do online. By talking openly with them about online relationships, they can quickly ascertain the kind of behaviour which is appropriate or inappropriate. Ask them whether they have any online friends or if they play online games with people they haven't met. This could then open up conversations about the subject of grooming.

CHECK PRIVACY SETTINGS

In order to give your child a safer online experience, it is important to check privacy settings or parental controls on the networks, devices, apps, and websites they use. Disable location sharing if you can. If you use location-sharing apps to check where your child is, remember that these could always be used by strangers to follow your child without their knowledge. Ensure that you check options so that location information is never shared with anyone except those they have permission to share with.

MONITOR SOCIAL MEDIA & LIVE-STREAMING USE

It's important to be aware of what your child is sharing on social media and with whom. Create your own profile and become "friends" with them or follow them so that you can monitor their activity. Similarly, always check on them if they are live streaming and implement privacy controls. Choose a generic screen name and profile picture that hides their identity. You may also feel more comfortable being present each time they live stream.

STICK TO 'TRUE FRIENDS'

Make it clear to your child that they should not accept friend requests from people they don't know and to verify friend requests with people who they do know. Encourage them to only interact and engage with 'true friends' i.e. those friends who don't ask personal questions such as close family and friends. Remind them to never agree to chat privately with a stranger or someone they don't really know and to never divulge personal information, such as mobile phone numbers, addresses, passwords or the name of their school.

DISCUSS HEALTHY RELATIONSHIPS

Talk to your child about what a healthy relationship looks like and how to detect someone who might not be who they claim to be. Explain that groomers will pay your child compliments and engage in conversations about personal information, such as hobbies and relationships. They may admire how well they play an online game or how they look in a photo. Groomers will also try and isolate a child from people close to them, such as parents and friends, in order to make their relationship feel special and unique.

BE SUPPORTIVE

Show your child that you will support them and make sure they understand they can come to you with any concerns they may have. They need to know they can talk to you if someone does something they are uncomfortable with, whether that is inappropriate comments, images, requests or sexual comments.

Meet our expert

Jonathan Taylor is an online safety expert and former Covert Internet Investigator for the Metropolitan Police. He is a specialist in online grooming and exploitation and has worked extensively with both UK and international schools in delivering training and guidance around the latest online dangers, social media apps and platforms.

LOOK OUT FOR WARNING SIGNS

Child safety experts have identified key grooming patterns and advise parents to look out for:

- Secretive online behaviour.
- Late night internet or smartphone usage.
- Meeting new friends in unusual places.
- Becoming clingy, develop sleeping or eating problems or even bedwetting.
- Lack of interest in extra-curricular activities.
- Having new items, such as clothes or phones, unexplainably.
- Seem with drawn, anxious, depressed or aggressive.
- Having older boyfriends or girlfriends.

Importance of Healthy Eating and Sleeping

Although this may seem like an obvious piece of advice, eating healthily and having good sleeping habits isn't something that all of our students take as seriously as they should.

In our well being survey this academic year, 9.9% of our students who responded said that they did not eat breakfast in the morning and 21.5% said they sometimes did.

39.8% of the respondents said that they keep their phones in their bedroom when they sleep and 18.6% said they sometimes do. 38.2% of the respondents said that they do not have their phones in their bedrooms when they sleep.

If students have smart phones in their room, they may still be using their devices during the night which will impact on their sleep.

Eating healthily and having quality sleep is important for all our students. We are particularly mindful of our Year 11s who are entering their exam period. Some of the duration of the exams are very long - with English Language Paper 2 being 2 hours and 5 minutes (and some students will have extra time). Therefore, it is crucial to ensure healthy habits are adopted.

Sleep

Getting enough sleep is essential for students as it directly impacts their physical and mental health, as well as their academic performance. Satisfactory sleep helps in consolidating information learned throughout the day, improving memory, concentration, and problem-solving abilities. Students who are well-rested are more likely to be alert, attentive, and engaged during classes, leading to better retention of knowledge.

Healthy eating

Maintaining a healthy diet is crucial because it provides the necessary nutrients for growth, development, and overall well-being. A balanced diet ensures that students receive the essential vitamins, minerals, and macronutrients needed for optimal physical and cognitive functioning. A nutritious diet supports healthy brain function, enhances focus and attention, and boosts the immune system, thereby reducing absenteeism due to illness. Breakfast is a really important meal of the day and it is important to note that if some students skip breakfast, they are not eating from dinner time until 11.00 am the following morning. If students skip eating at breakfast, their next opportunity to eat is 13.20. We do see some of our students experience 'hanger' moments! Please do make sure your child has appropriate snacks / packed lunch / money for them to last throughout the day.

Avoiding energy drinks

It's important for students to refrain from consuming energy drinks due to their potential negative effects on health and academic performance. Energy drinks often contain high levels of caffeine and sugar, which can lead to increased heart rate, restlessness, and difficulty concentrating. They can also disrupt sleep patterns, leading to fatigue and reduced alertness during classes. Encouraging students to stay hydrated with water or natural fruit juices is a healthier alternative.

Energy drinks are banned at Langtree. If we see students consuming these drinks, we will confiscate them.
