## Whitburn Village Primary School Bucket list: things to do before I leave Year 6

Our School Council have worked with all of the children in their class to come up with experiences they would like to complete, both at school and in our local area, before the children leave Year 6. This activity is intended to promote learning and enjoyment, through activities that our children see are relevant to them. The experiences can be covered across any age range, but are in class sections due to the progressive nature of some of the age-related skills needed for some of the experiences. We would love to see completed lists from the children yearly and finally completed a completed bucket list in Year 6.
