

## Autumn term 2- Nursery

This half term has been one of the quickest ever! We have been so busy time has just flew!

We have explored the natural resource from outside and sorted them into groups.

We have been looking for shapes in the clouds.

Splashing in the water is one of our favourite things to do.

We worked as a team to make our own truly magnificent broom!

Odd sock day was funny! Everyone had different silly socks on.

The torches in our investigation area are great. We like to hide in dark places to try them out.

We have some new friends joining us in January and we can't wait to show them what Nursery is all about. Happy Christmas everyone.
