

Year 3 Spring 1 2022

Science lessons have been all about magnets. We investigated which magnet was the strongest.

In Maths, it has been fun learning about fractions and concentrating on quick recall of times tables. We enjoyed investigating fractions and creating fraction robots. We are continuing to work on telling the time and using money.

English lessons have been based around Greek myths – heroes and monsters. We enjoyed creating horrible beasts!

In Geography, it was fun learning about volcanoes, how they erupt and earthquakes. We have created repeated pattern pictures in Art using string printing and can use more than one colour paint to effect. In computing, we have been getting used to Google Classroom and learning how to use the chrome books.

Coming up in Spring 2

- Roald Dahl The Twits
- Number and measures
- Ancient Egypt
- Rocks
- The Easter Story
