

## Year 4 Spring 2

The children enjoyed a wonderful spring half term and we have had lots of fun learning about many different topics. Here are just a few of them:

### English

We have been studying Ancient Greece in history and we decided to look at a modern myth tale in English, 'Leo and the Gorgon's Curse'. The children created their own unlikely hero and wrote wonderful descriptive paragraphs. They also enjoyed creating their own monsters and writing their own mythological stories.

The children enjoyed acting out a scene from the story and created a short play script.

### Maths

Since coming back to school, we have focused on the four operations, addition, subtraction, division and multiplication. We have applied the operations to different mathematical problems and solved them using the formal methods. We have also used our new skills to solve tricky two-step word problems.

### PE

We have had a fantastic time learning new skills in gymnastics including cartwheels and handstands. We created a fantastic short routine and performed this in front of the class. We have also developed our jumping skills and learned a short choreographed dance!
