

Year 3 Summer 1 2022

In Maths we have been learning how to add and subtract using a column method. We have worked hard on our times tables and have worked through x2, 3, 4, 5, 6, 8, 10 as well as developing our division facts.

In English we enjoyed reading about Rex to the Rescue. We had to persuade people to keep their dogs under control. We then read Jim and the Beanstalk. Our reading and writing has been linked to this. We are beginning to think about how to punctuate speech in our writing.

In Science we have investigated rocks and plants. We have been able to identify the plant life cycle and grew our own cress seeds. We learned about the different vocabulary related to this and were able to recognise pollination, seed dispersal and germination.

In Music we have been looking at rhythm, we can now read and write some of the different musical notations involved in a piece of music.

Coming up in Summer 2

- The Iron Man
- Number, fractions, statistics, measures
- Light and shadows
- Road safety
- Where is the Mediterranean?
- What can we learn from the Egyptians?
