

This book is great for people with a good sense of humour!

This is the first in a series of 12 books and is about two young friends who write books and live in a treehouse together. They are struggling to complete their book and come across many distractions, including a machine that shoots marshmallows into their mouths.

This is a fun, silly book with amazing illustrations and even some activities to complete at the back once you are done! I hope you enjoy this book as much as I have!
