

Year 3 Autumn 1 2024

English

We are working hard in Y3. We are practising joining our handwriting as well as lots of spelling practice using syllable division. In English we have been telling traditional stories, writing troll reports and creating instructions. We have enjoyed creating our own books.

Maths

In Maths we have been practising quick as a click recall of x 2,5, and 10 times tables. We are practising counting in 1's, 10's and 100's. We have investigated 2D shape and used a geoboard to make shapes.

Science

In Science we have been looking at how magnets work and investigating which materials are attracted to magnets. The children have really enjoyed this unit and loved using the magnets as part of their learning!

DT

As part of our DT we have designed a product using a flashing light to help children while walking in the dark. The children programmed microbits to flash using different shapes. The children also used an online resources called sketchpad to design a logo for their product!

What is coming -up?

English: postcard writing, exploring story writing and biographies.

Maths: x3,4,6,8, addition and subtraction, 3D shape, measures (time, mass, capacity, length)

History: Who first lived in Britain?

RE: How and why is advent important?

Science – How far can you throw your shadow?
