

Keble School – Vision

“At Keble School the Individual Counts”

The Board of Governors of Keble School has a vision for the school and its on-going development. This vision is informed by five guiding aims for the school:

- Keble School aims to continue to provide an excellent education for boys aged four to thirteen.
- Keble School aims to educate the whole child, offering the necessary breadth of curriculum, providing a wide range of opportunities and activities, and focusing on social skills
- Keble School aims to maintain its caring, supportive and nurturing ethos, which underpins the daily life of the school, helps our pupils develop self-knowledge and self-esteem, and helps our pupils develop a care for the well-being of others
- Keble School aims to provide an education that prepares our pupils effectively for the next stage of their education, and aims to be the best feeder to the best senior schools at 13+
- The governors and Senior Management Team aim to lead the school in a manner that is alert to and responsive to change, and that always sees the broad educational interests of our pupils as the school’s first priority.

Everything that follows in this document is directed towards the more effective achievement of these aims.

Specific Aims

Academic

- The school aims to provide consistently excellent teaching in all year groups, and in all subjects within a broad and balanced curriculum.
- We aim to provide top quality resources which support and enhance the curriculum, including improved ICT and library provision.
- Keble School aims to increase the range of opportunities for extra-curricular and out of school activities.
- The school aims to ensure all boys are prepared properly for transfer to an appropriate senior school where they will be happy, successful and fulfilled.

Management and Governance

- The board of governors aims to be fit for purpose by maintaining a balance of skill sets and capabilities.
- The school aims to continue to recruit the highest calibre teachers and support staff.
- Keble School aims continually to improve the quality of teaching and learning, and effective monitoring of pupil progress.

Finances

- The school aims to manage its finances prudently to ensure that it is well placed to meet the opportunities and challenges associated with twenty-first century education.
- Keble School aims to build a fund to enable it to increase its bursary provision.

Premises

- The governors aim to plan carefully the next phases of improvement which will make best use of the entire school site.
- The school aims to ensure that the site is always as welcoming, safe and secure as possible.
- We aspire to a time when the school will have its own nursery and playing fields.

Sustainability

- We aim to move to electronic communication throughout the school, with parents and other stake-holders.
- It is the school's wish to further enhance the teaching and thus pupil understanding of environmental issues.
