

Dear Parent/carer,

We want to make our journeys to school safer. We're creating a **West Barnet Safe Routes To School** group, where we want you to share your experiences of the school run and identify problem areas which could be improved.

The first meeting will be **Wednesday 4th February, 7.30-9pm at Cophall School.**

Through meetings and workshops, and with input from the council, community teams and engineers, we hope to create a skilled parent group, able to speak about road issues in West Barnet. If you...

- **Worry about the safety of your children on their way to school**
- **Are concerned about any aspect of your school run journey**
- **Want to see safer streets**

...we'd love to see you there.

The formation of this group is part of the Bike It Plus program happening at the school this year. Bike It Plus is run by sustainable transport charity Sustrans which works with communities, policy-makers and partner organisations so that people can choose healthier, clearer and cheaper journeys and enjoy better, safer spaces where they live.

To book a place at the meeting, please email

Hilary.campbell@sustrans.org.uk with your name and the school your child attends.

I look forward to seeing you there.

Hilary Campbell

Bike It Plus Officer, Barnet
