

**the ST LAWRENCE academy**

Dear Parent/Carer

As part of the School Nursing provision at The St Lawrence Academy a Health and Wellbeing plus service is now being offered to students in Years 9, 10 and 11.

As part of this confidential service students can access a qualified nurse for sexual health advice and treatment such as condoms, pregnancy testing, emergency hormonal contraception and chlamydia screening.

Students will be assessed as to their level of understanding before advice is offered and safeguarding risks will be considered at every contact. Students are encouraged to speak to their parents about accessing this service.

Please contact Mrs Helen West, Assistant Principal for Inclusion and Achievement, if you have any queries about this service. Email: [hwest@tsla.co.uk](mailto:hwest@tsla.co.uk)

Kind Regards

Mrs Helen West

Assistant Principal for Inclusion and Achievement
