

## Sunshine Class - Summer term 2017.

In the first half of the term Sunshine class really enjoyed learning about 'Dinosaurs'. The stories we learned about were 'Dinosaurs Love Underpants' and 'Saturday Night at Dinosaur Stomp'. We took part in sensory stories, ICT lessons and practical science lessons. We made different things for a class display along with having a very enjoyable class visit to 'The Great North Museum' in Newcastle to explore Dinosaurs.

In the second half of the term our topic we are learning about is 'Minibeasts'. Our stories we are exploring are 'Mad About Minibeasts', 'Norman the slug with the silly shell' and 'Superworm'. We are enjoying learning about lots of different Minibeasts and like to go on 'Minibeast hunts' during Science and Geography. We also have five caterpillars in a special tub in our class and are looking forward to seeing how they grow and change into butterflies.
