

MFL Challenge:

The MFL department at Denton Community College would like you to design and make your own world famous landmark out of household recycling.

We would like you to think of five words that you can use to describe your work of art. Please share these with some pictures of your designs with us via info@dentoncommunitycollege.org.uk and the closing date for entries is Monday 19th July 2021

Did you know?

You can climb to the top of the Leaning Tower of Pisa

That's right – the most famous structurally unsound building in the world is open to visitors. Seriously though, since its restoration and slight un-tilting, the structure's integrity is monitored constantly and the building hosts large numbers of visitors every day.

Interesting Facts about Maya Pyramids and Architecture

Maya pyramids had a flat top.
The pyramids of the Aztecs were very similar to those of the Maya. The main difference was that the Aztec would sometimes build more than one temple on the top of a pyramid.

Did you know?

Students from Denton Community College were invited to accompany members of the Denton Town Twinning Association to Denton's twin town of Montigny le Bretonneux on Friday 9th November 2018.

On Armistice Day the students were part of the parade through Montigny le Bretonneux and laid a wreath at the town cenotaph on behalf of the people of Denton.

If you don't want to create a model, but would still like to take part, we would like to see photos you have found (or even better, taken) of famous landmarks. With this photo we would like you to write a postcard pretending you are at the landmark and telling us all about the things you have seen.
