LEARN

Love to Learn is our way of making homework fun! Students have a fun project to complete each term, whether it's building a castle in Year 7 or designing a treasure map in Year 8. There are loads of ways to get involved in the project, let your imagination loose.

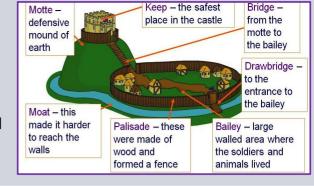

Have a look at the next few pages to see what you can work on with your child each term. Remember that completing homework really does reflect in better GCSE grades!

Build a 3D model of a Motte and Bailey castle. There are many tutorial clips available online to help.

Why not add a written piece to explain the purpose of Motte and Bailey Castles with interesting

You will create a celebrity family tree using correct French translation. Describe your choices and fantasy family members.

Your family tree could be designed on a computer or you could be more craft focused.

Music Project: Prepare a presentation and design a version of a musical instrument on your chosen musical culture. Drama Project: Create a mask that can be used in physical performance

YEAR SPRING HALF TERM 2

Research the history of your home town or a place you have visited and write a piece of travel writing imagining exploring it for the first time, including informative detail and description. You can also make a map or model of your home town or the place you visited!

YEAR
SUMMER
HALF TERM 1

Write a scientific report. Why did the dinosaurs become extinct? What are the theories and what is the evidence? Did any survive and their descendants live today?

Create a piece of artwork based on sea life that includes the formal elements. Think about line, colour, form and shape, value, texture, space, and movement.

Create a product using household items to demonstrate how products can be used and recycled. For Food Technology Create a model of a full plate using the Eatwell Guide.

Design a treasure map to showcase your percentages, angles and bearings skills.

Combine your mathematical and creative presentation skills to create a map to find buried treasure. using bearings and suitable distance scales.

Produce an investigation, newspaper article, or piece of research to show your findings of products that are made and developed in China. Talk about whether you would survive without the products and how it would change our lives.

Britain and the First World War Your Task: Build a model trench including specific features of the trench. Add to it by writing about the experiences of the soldiers and what they would have done in different parts of the trench.

YEAR
SUMMER
HALF TERM 1

Plan a training programme
and map out the effects
of the programme over time.
You could write your training plan
for a famous sports superstar –
try and tailor it to the sport they
play!

Computer Science: Flowchart algorithms. Covert Ikea assembly instructions into a flowchart. You can also add add additional flowcharts for a variety of instructions that you can think of that interest you!
