| I had no knowledge apart from how to swim and how to lead a subject lesson.                                 | N/A   |
| Was a club swimmer and a qualified swim teacher   | It was informative and fun and I really enjoyed the course. Thank you   |
| Previous Swim England Level 1 Swimming assistant (teacher) qualification. I also used to swim competitively | Really engaging even though I knew a lot of it , it reminded me of some things and also taught me new rules since i last did the course             |
| My knowledge of swimming was only through swimming as a hobby.  | I found this course very useful for my job role. The course facilitators were amazing and gave some brilliant feedback and advice.                  |
| Very little knowledge regarding swim teaching. No involvement as a swim teacher in the past.                | I really enjoyed this course, and had great fun in the water too.   |
| Very limited, disliked the thought of being in the water.   | Thank you very much, I'm feeling much better about the water and look forward to supporting the swimming coach!                                     |
| Swim qualification 10 years ago   | Brilliant session   |
| Some knowledge of swimming  | n/a   |
| I have attended swimming lessons with Year 4 but have not done any teaching.                                | I really enjoyed the course, it was a lot of fun and I gained a lot of knowledge.   |
| I had already completed the course previously so I had some idea about what to expect.                      | I think the day was great. The games in the pool really helped everyone to overcome any barriers they have had before leading their small sessions. |
| Low baseline. Occasional swim for leisure. I support yr 4 weekly at the pool.                               | Thank you Zoe and Sharon for helpful teaching and resources.  |
| No school swimming, but have previously completed and taught baby and preschool swimming.                   | Brilliant course with fantastic teachers!   |

|   | time, I would prefer to go home after the pool time and not back to the class as my hair was wet and hadn't been able to shower properly however I did enjoy the quiz!  |
| None  | Fantastic enjoyable day. Practical session as. Games were enjoyable.  |
| Minimal knowledge on how to support with swimming in a school context. I have been cover for swimming lessons when there have ben staff absences. | The session was fun and engaging with a good balance of small group discussions and talking from instructors that ensured we stayed focused. The practical was also a good chance for us as the staff to experience what the children go through from the volume and difficulty listening/ not being distracted in the pool to the stresses and discomfort of changing out of their wet clothes. I enjoyed the course and will find it useful when I am needed to help. |
