

# Fellgate Primary School

Friday 2nd July 2021

Dear Children, Parents, Carers and Governors,

Our phrase of the week this week was **'taking care of our Earth.'** We discussed how our planet is a unique place to live and how we all have a part to play in **'taking care of our Earth'** to prevent **climate change** from continuing to increase. Climate change is causing problems such as: melting ice in the Antarctic which is causing sea levels to rise; extinction of certain animals and more droughts and rainfalls happening in different countries, which is resulting in people unable to grow the crops they need. We found out ways in which we can take steps to help our planet and fight climate change, these included, reducing, reusing, recycling, using cars less by walking or cycling, use less electricity and water and plant more trees.

The Covid-19 vaccine is the best protection against the virus. Every vaccination gives us hope - helping us back to a more normal way of life. To book your Vaccine please visit this link:
