

SUPPLEMENTARY INFORMATION Coronavirus (Covid 19)

| | |
|---|---------------------------------------|
| ACTIVITY: Coronavirus (COVID-19) Spread and Government Advice (REVISION 5) – September 2021 (Page 1 of 22) (R4a) | DATE OF ASSESSMENT 29.11.21 |
|---|---------------------------------------|

| | |
|-----------------------------|----------------------------|
| ESTABLISHMENT/SCHOOL | SECTION/TEAM All |
|-----------------------------|----------------------------|

| | |
|--|--------------------------------------|
| WHO MIGHT BE HARMED? Employees, pupils, trainees, students and visitors | HOW MANY ARE AFFECTED? 200 |
|--|--------------------------------------|

This document is designed to act simply as an aide memoire, recognising that all schools have their individual contexts, processes and procedures already established in relation to overall school effectiveness.

The document is by no means intended to serve as a 'checklist', rather it is hoped that it will be a useful tool for school leaders to use with making decisions and reviewing and updating their risk assessments and the temporary modifications that are required.

Greyed out areas of this risk assessment will be implemented alongside the Outbreak Management Plan should there be an increase in positive cases across the setting.

The thresholds detailed below can be used as an indication for when to seek public health advice if there are concerns:

For most education and childcare settings, whichever of these thresholds is reached first:

- 5 children, pupils, students or staff, who are likely to have mixed closely, test positive for COVID-19 within a 10-day period; or
- 10% of children, pupils, students or staff who are likely to have mixed closely test positive for COVID-19 within a 10-day period

For special schools, residential settings, and settings that operate with 20 or fewer children, pupils, students and staff at any one time:

- 2 children, pupils, students and staff, who are likely to have mixed closely, test positive for COVID-19 within a 10-day period

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

|--|---------------------------|--|---|---|

This Risk Assessment sets out the decisions taken and measures put in place to prepare for the phased re-opening of the school and ensure the school continues to operate in a safe way. Existing policies and guidance continue to apply alongside the actions within this document, including but not limited to:

- Health and Safety Policy
- First Aid Policy
- Child Protection Policy
- CYP Response Plan
- DFE Guidance relating to COVID19
- The Health and Safety at Work etc. Act 1974
- Management of Health and Safety at Work Regulations 1999
- Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR) 2013
- First Aid Regulations 1981

The Health Protection (Notification) Regulations 2010

| HAZARDS (including inadequate / lack of arrangements) | EXISTING CONTROL MEASURES | <input type="checkbox"/> if in place X if not | IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES | RESIDUAL RISK RATING High, Medium, Low |

| | | | | |
|--|--|--|---|--|
| | <p>applies even if you have received one or more doses of COVID-19 vaccine.</p> <p>If a child is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age and needs of the child, with appropriate adult supervision if required. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.</p> <p>If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom must be cleaned and disinfected using standard cleaning products before being used by anyone else.</p> <p>PPE must be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs). More information on PPE use can be found in the safe working in education, childcare and children's social care settings, including the use of personal protective equipment (PPE) guidance.</p> <p>As is usual practice, in an emergency, call 999 if someone is seriously ill or injured or their life is at risk. Anyone with coronavirus (COVID-19) symptoms should not visit the GP, pharmacy, urgent care centre or a hospital.</p> <p>Any members of staff who have helped someone with symptoms and any pupils who have been in close contact with them do not need to go home to self-isolate unless they develop symptoms themselves (in which case, they should arrange a test) or if the symptomatic person subsequently tests positive (see below) or they have been requested to do so by NHS Test and Trace.</p> <p>Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell. The area around the person with symptoms must be cleaned with normal household bleach after they have left to reduce the risk of passing the infection on to other people. See the COVID-19: cleaning of non-healthcare settings guidance. Public</p> | | <p>Staff who have cared for the child do not need to go home unless</p> <ul style="list-style-type: none"> • they develop symptoms, in which case they should arrange to have a test • the symptomatic person subsequently tests positive • they are requested to do so by Track and Trace. <p>Everyone must wash their hands thoroughly for 20 seconds with soap and running water after any contact with someone who is unwell.</p> <p>The area around the child with symptoms must be cleaned thoroughly.</p> <p>Pupils should use a separate bathroom if possible. The bathroom should be disinfected before anyone else can use it. Main School – disabled toilet Base – designated toilet 1st toilet near main entrance Children in nappies will use changing station. This will then be cleaned down thoroughly as is usual practise.</p> <p>Procedure for pupils with symptoms</p> <ul style="list-style-type: none"> • Classroom staff take child to quarantine area. • Windows to be opened in quarantine area if possible • Door to be closed if possible • Classroom staff to contact first aider to come over to quarantine area. • Classroom staff to contact SLT and office staff • When first aider arrives, they put on all necessary PPE equipment. • Once first aider is prepared, classroom staff can now return to their classroom. • First aider to stay with child until collected. • Office staff to call parents to collect pupil (Base children to leave from base entrance and main school pupil to leave from main school entrance • If a parent is unable or unwilling to collect their child immediately, reception staff will inform member of SLT | |
|--|--|--|---|--|

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

|--|---|--|--|---|
| <p>3. Risk of coronavirus and other infections spreading to children and staff due to inadequate infection control procedure</p> | <p>The school will ensure that pupils clean their hands regularly, including when they arrive at school, when they return from breaks, when they change rooms and before and after eating. Regular and thorough hand cleaning is going to be needed for the foreseeable future. Points to consider and implement:</p> <ul style="list-style-type: none"> • has the school enough hand washing or hand sanitiser 'stations' available so that all pupils and staff can clean their hands regularly • can the school ensure that there is enough supervision when using hand sanitiser to eliminate congestion. Small children and pupils with complex needs should continue to be helped to clean their hands properly. Skin friendly skin cleaning wipes can be used as an alternative • the school will build these routines into school culture, supported by behaviour expectations and helping ensure younger children and those with complex needs understand the need to follow them • Soap and water is more effective than using sanitisers <p>The 'catch it, bin it, kill it' approach continues to be very important, so schools must ensure that they have enough tissues and bins available in the school to support pupils and staff to follow this routine. As with hand cleaning, schools must ensure younger children and those with complex needs are helped to get this right, and all pupils understand that this is now part of how school operates. Some pupils with complex needs will struggle to maintain as good respiratory hygiene as their peers, for example those who spit uncontrollably or use saliva as a sensory stimulant. This should be considered in risk assessments in order to support these pupils and the staff working with them, and is not a reason to deny these pupils face to face education.</p> <p style="background-color: #ffff00;">Where there is an infection outbreak other than COVID-19 the</p> | | <p>FPS Action:</p> <ul style="list-style-type: none"> • Daily updates from DFE forwarded to HT. HT read info within the updates and action as necessary. Info shared with wider school population as necessary. • Key hygiene information located around school. Prevent and symptoms information shared with pupils at the start of each day. Info shared on social media so all school population is aware of measures taken. • Constant communication with parents through class dojo and newsletters. <p>Cleaning:</p> <ul style="list-style-type: none"> • Cleaner to pay particular attention to telephones, copier machines, door handles and doors. • Staff to wipe down own keyboards. • After each use of school equipment, staff members are expected to wipe the item clean (eg photocopier, keyboard, telephone, etc). Non classroom members of staff to wipe down their own work area, including chair, telephone, keyboard, at the end of each work shift. These areas will be cleaned by the cleaner but this is an additional cleaning measure. • HT, SBM and Caretaker will ensure all cleaning in school will be at the highest level. • All classroom groups will have a hand sanitiser station. • All pupils and staff members have access to soap and water - either in classroom group or in the toilet areas. • Cleaning equipment - stock take conducted on a weekly basis to ensure good stocks of everything needed in school to ensure good hygiene measures. • Each child will have own stationery pack - items and bag to be cleaned by pupils at the end of each day. • ICT suite and iPad to be wiped down after use following ICT in Schools risk assessment. | L |

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

|--|---|--|---|---|
| | <p>Outbreak Management Template provided by Public Health should be used.</p> <p>Face coverings are no longer advised for pupils, staff and visitors either in classrooms or in communal areas. The government has removed the requirement to wear face coverings in law but expects and recommends that they are worn in enclosed and crowded spaces where you may come into contact with people you don't normally meet. This includes public transport and dedicated transport to school or college.</p> <p>Points to consider and implement:</p> <ul style="list-style-type: none"> • putting in place a cleaning schedule that ensures cleaning is generally enhanced and includes: <ul style="list-style-type: none"> ○ more frequent cleaning of rooms / shared areas that are used by different groups ○ frequently touched surfaces being cleaned more often than normal • different groups don't need to be allocated their own toilet blocks, but toilets will need to be cleaned regularly and pupils must be encouraged to clean their hands thoroughly after using the toilet • clean surfaces that children and young people are touching, such as toys, books, desks, chairs, doors, sinks, toilets, light switches, bannisters, more regularly than normal <p>Public Health England guidance for cleaning non-healthcare settings to advise on general cleaning required in addition to the current advice on COVID-19: cleaning of non-healthcare settings guidance.</p> | | <ul style="list-style-type: none"> • Children to bring limited equipment into school e.g. packed lunch, hat, coat. Mobile phone • Mobile phones must be kept in class cupboard and signed for using current proforma (use lockable box all rooms were issued with) • Classes to remain clutter free so that cleaners can ensure a deep clean. • Teacher to reinforce cleaning and hygiene messages during the day. • Teachers to supervisor hand washing and hand sanitising. • All classroom groups and work areas - windows to be opened frequently during room use to allow fresh air to circulate. During the cold weather windows to be opened during break times. • Use of toilets - pupils will be supervised by classroom staff. Classroom staff to ensure no crowding of toilet areas and SD measures are maintained at all times. • All pupils to wear uniform • Paper towels to be provided as an alternative to hand dryers. • Waste bins in each room and frequently emptied, all waste removed at end of each day. • Ventilation has been checked and maintained by SBM and caretaker. • Where a known or suspected Covid 19 case has been reported, a full clean will be completed as per the specific guidelines given by the government. • Goods entering the site will be cleaned • Visitors to school will be asked to wear face masks when moving around school, when a distance of 2m cannot be maintained and in communal areas. • Staff will be asked to wear a face mask when in communal areas. | |

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

| 4. Risk of coronavirus infection spreading due to large class sizes and reduced space | <p>Current Government Guidance (17/08/2021) no longer recommends that it is necessary to keep children in consistent groups ('bubbles'). This means that bubbles will not need to be used for any summer provision (for example, summer schools) or in schools from the autumn term.</p> <p>As well as enabling flexibility in curriculum delivery, this means that assemblies can resume, and no longer need to make alternative arrangements to avoid mixing at lunch.</p> <p>However extra actions will need to be taken if the number of positive cases substantially increase within the school setting.</p> <p>The school will minimise contacts and mixing between people while delivering a broad and balanced curriculum.</p> <p>The overarching principle to apply is reducing the number of contacts between children and staff. This can be achieved through keeping groups separate (in 'bubbles') and through maintaining distance between individuals. These are not alternative options and both measures will help, but the balance between them will change depending on:</p> <ul style="list-style-type: none"> ● children's ability to distance ● the lay out of the school ● the feasibility of keeping distinct groups separate while offering a broad curriculum (especially at secondary) <p>It is likely that for younger children the emphasis will be on separating groups, and for older children it will be on distancing. For children old enough, they should also be supported to maintain distance and not touch staff where possible.</p> <p>Points to consider and implement:</p> | | <p>FPS Action:</p> <p>School Day Times Main school 8.55am – 3.15pm Resource base 9.05am - 3.05pm</p> <p>Assemblies to be held virtually from Monday 1st November 2021.</p> <p>Staff meetings and Governor meetings to be held virtually from Monday 1st November 2021.</p> <p>The main school and the resource base has been split into 2 groups for outdoor play at morning play and lunch time. The groups will have separate lunchtimes. Tables to be wiped down inbetween</p> <p>Main school</p> <p>Group 1- Acorns, Hawthorns & Willows Playtime:10.30-10.45am Lunch:12.00-12.30pm Lunchtime outdoor play: 12.30-1.00pm</p> <p>Group 2-Chestnuts, Sycamores & Oaks Playtime:10.45-11.00am Lunch: 12.30-1.00pm Lunchtime outdoor play: 12.00-12.30pm</p> <p>The Base Group1- Lemons, Oranges, Cherries Playtime:10.30-10.45am Lunch: 12.00-12.30pm</p> | | |

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

| HAZARDS (including inadequate / lack of arrangements) | EXISTING CONTROL MEASURES | <input type="checkbox"/> if in place <input checked="" type="checkbox"/> if not | IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES | RESIDUAL RISK RATING High, Medium, Low | |
| | <p>How to group children Consistent groups reduce the risk of transmission by limiting the number of pupils and staff in contact with each other to only those within the group. They have been used in schools in the summer term in recognition that children, and especially the youngest children, cannot socially distance from staff or from each other and this provides an additional protective measure. Maintaining distinct groups or 'bubbles' that do not mix makes it quicker and easier in the event of a positive case to identify those who may need to self-isolate, and keep that number as small as possible.</p> <p>In this guidance for the autumn term, maintaining consistent groups remains important, but given the decrease in the prevalence of coronavirus (COVID-19) and the resumption of the full range of curriculum subjects, schools may need to change the emphasis on bubbles within their system of controls and increase the size of these groups.</p> <p>In secondary schools, and key stage 4 and key stage 5, the groups are likely to need to be the size of a year group to enable schools to deliver the full range of curriculum subjects and students to receive specialist teaching. If this can be achieved with small groups, they are recommended. At primary school, and in the younger years at secondary (key stage 3), schools may be able to implement smaller groups the size of a full class. If that can be achieved, it is recommended, as this will help to reduce the number of people who could be asked to isolate should someone in a group become ill with coronavirus (COVID-19).</p> <p>Schools should assess their circumstances and if class-sized groups are not compatible with offering a full range of subjects or managing the practical logistics within and around school, they can look to implement year group sized 'bubbles'. Whatever the size of the</p> | | <p>Lunchtime outdoor play: 12.30-1.00pm</p> <p>Group 2- Apples, Plums & Blueberries Playtime:10.45-11.00am Lunch: 12.30-1.00pm Lunchtime outdoor play: 12.00-12.30pm</p> | | |

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. |--|---|--|--|--|
| | <p>group, they should be kept apart from other groups where possible and older children should be encouraged to keep their distance within groups. Schools with the capability to do it should take steps to limit interaction, sharing of rooms and social spaces between groups as much as possible. When using larger groups the other measures from the system of controls become even more important, to minimise transmission risks and to minimise the numbers of pupils and staff who may need to self-isolate. We recognise that younger children will not be able to maintain social distancing, and it is acceptable for them not to distance within their group.</p> <p>Both the approaches of separating groups and maintaining distance are not 'all-or-nothing' options, and will still bring benefits even if implemented partially. Some schools may keep children in their class groups for the majority of the classroom time, but also allow mixing into wider groups for specialist teaching, wraparound care and transport, or for boarding pupils in one group residentially and another during the school day. Siblings may also be in different groups. Endeavouring to keep these groups at least partially separate and minimising contacts between children will still offer public health benefits as it reduces the network of possible direct transmission. All teachers and other staff can operate across different classes and year groups in order to facilitate the delivery of the school timetable. This will be particularly important for secondary schools. Where staff need to move between classes and year groups, they should try and keep their distance from pupils and other staff as much as they can, ideally 2 metres from other adults. Again, we recognise this is not likely to be possible with younger children and teachers in primary schools can still work across groups if that is needed to enable a full educational offer.</p> <p>Measures within the classroom Maintaining a distance between people whilst inside and reducing the amount of time they are in face to face to contact lowers the risk of</p> | | | |

| | <p>transmission. It is strong public health advice that staff in secondary schools maintain distance from their pupils, staying at the front of the class, and away from their colleagues where possible. Ideally, adults should maintain 2 metre distance from each other, and from children. We know that this is not always possible, particularly when working with younger children, but if adults can do this when circumstances allow that will help. In particular, they should avoid close face to face contact and minimise time spent within 1 metre of anyone. Similarly, it will not be possible when working with many pupils who have complex needs or who need close contact care. These pupils' educational and care support should be provided as normal.</p> <p>For children old enough, they should also be supported to maintain distance and not touch staff and their peers where possible. This will not be possible for the youngest children and some children with complex needs and it is not feasible in some schools where space does not allow. Schools doing this where they can, and even doing this some of the time, will help.</p> <p>When staff or children cannot maintain distancing, particularly with younger children in primary schools, the risk can also be reduced by keeping pupils in the smaller, class-sized groups described above. Schools should make small adaptations to the classroom to support distancing where possible. That should include seating pupils side by side and facing forwards, rather than face to face or side on, and might include moving unnecessary furniture out of classrooms to make more space.</p> <p>It is important to ensure good ventilation. Advice on this can be found in Health and Safety Executive guidance on air conditioning and ventilation during the coronavirus outbreak.</p> <p>In classrooms, it will be important that schools improve ventilation (for example, by opening windows).</p> | | | |

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

|--|---|---------------------------|---|---|
| | <p>Measures elsewhere Groups should be kept apart, meaning that schools should avoid large gatherings such as assemblies or collective worship with more than one group. When timetabling, groups should be kept apart and movement around the school site kept to a minimum. While passing briefly in the corridor or playground is low risk, schools should avoid creating busy corridors, entrances and exits. Schools should also consider staggered break times and lunch times (and time for cleaning surfaces in the dining hall between groups).</p> <p>Schools should also plan how shared staff spaces are set up and used to help staff to distance from each other. Use of staff rooms should be minimised, although staff must still have a break of a reasonable length during the day.</p> <p>Measures for arriving at and leaving school Travel to school patterns differ greatly between schools. If those patterns allow, schools should consider staggered starts or adjusting start and finish times to keep groups apart as they arrive and leave school. Staggered start and finish times should not reduce the amount of overall teaching time. A staggered start may, for example, include condensing / staggering free periods or break time but retaining the same amount of teaching time, or keeping the length of the day the same but starting and finishing later to avoid rush hour. Schools should consider how to communicate this to parents and remind them about the process that has been agreed for drop off and collection, including that gathering at the school gates and otherwise coming onto the site without an appointment is not allowed. Schools should also have a process for removing face coverings when pupils and staff who use them arrive at school and communicate it clearly to them. Pupils must be instructed not to touch the front of their face covering during use or when removing them.</p> | | | |

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

|--|--|---------------------------|---|---|
| | <p>They must wash their hands immediately on arrival (as is the case for all pupils), dispose of temporary face coverings in a covered bin or place reusable face coverings in a plastic bag they can take home with them, and then wash their hands again before heading to their classroom. Guidance on safe working in education, childcare and children's social care provides more advice.</p> <p>Other considerations Some pupils with SEND (whether with education, health and care plans or on SEN support) will need specific help and preparation for the changes to routine that this will involve, so teachers and special educational needs coordinators should plan to meet these needs, for example using social stories.</p> <p>Supply teachers, peripatetic teachers and/or other temporary staff can move between schools. They should ensure they minimise contact and maintain as much distance as possible from other staff. Specialists, therapists, clinicians and other support staff for pupils with SEND should provide interventions as usual. Schools should consider how to manage other visitors to the site, such as contractors, and ensure site guidance on physical distancing and hygiene is explained to visitors on or before arrival. Where visits can happen outside of school hours, they should. A record should be kept of all visitors. Visitors to the school should be restricted to only absolute necessary visits.</p> <p>In primary schools and education settings teaching year 6 and below, there is no change to the existing position. It is not mandatory for staff and visitors to wear face coverings. In situations where social distancing between adults in settings is not possible (for example when moving around in corridors and communal areas), settings have the discretion to recommend the use of face coverings for adults on site, for both staff and visitors.</p> | | | |

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

|--|--|---------------------------|---|---|
| | <p>Primary school children do not need to wear face coverings.</p> <p>School can request parents to wear face covering when entering site during drop off and pick up times, but this is not mandatory.</p> <p>In schools where pupils in year 7 and above are educated, face coverings should be worn by adults and pupils when moving around the premises, outside of classrooms, such as in corridors and communal areas where social distancing cannot easily be maintained.</p> <p>Where a child routinely attends more than one setting on a part time basis, for example because they are dual registered at a mainstream school and an alternative provision setting or special school, schools should work through the system of controls collaboratively, enabling them to address any risks identified and allowing them to jointly deliver a broad and balanced curriculum for the child.</p> <p>Equipment and resources are integral to education in schools. During the summer term, their use was minimised, many were moved out of classrooms, and there was significant extra cleaning. That position has now changed for the autumn term, because prevalence of coronavirus (COVID-19) has decreased and because they are so important for the delivery of education. For individual and very frequently used equipment, such as pencils and pens, it is recommended that staff and pupils have their own items that are not shared. Classroom based resources, such as books and games, can be used and shared within the bubble; these should be cleaned regularly, along with all frequently touched surfaces. Resources that are shared between classes or bubbles, such as sports, art and science equipment should be cleaned frequently and meticulously and always between bubbles, or rotated to allow them to be left unused and out of reach for a period of 48 hours (72 hours for plastics) between use by different bubbles.</p> | | | |

The risk assessment templates are intended as a starting point to consider the steps you may need to take to control the risks. It is unlikely that they will be appropriate for each individual school and they should therefore be adapted for your own specific circumstances. The manager/Head must develop them taking into account individual requirements and using any specific manufactures guidelines/instructions.

| | <p>Outdoor playground equipment should be more frequently cleaned. This would also apply to resources used inside and outside by wraparound care providers. It is still recommended that pupils limit the amount of equipment they bring into school each day, to essentials such as lunch boxes, hats, coats, books, stationery and mobile phones. Bags are allowed. Pupils and teachers can take books and other shared resources home, although unnecessary sharing should be avoided, especially where this does not contribute to pupil education and development. Similar rules on hand cleaning, cleaning of the resources and rotation should apply to these resources.</p> <p>Schools have the flexibility to decide how physical education, sport and physical activity will be provided whilst following the measures in their system of controls.</p> <p>Music, dance and drama and assemblies can be undertaken in school so long as safety precautions are undertaken.</p> <p>Mixing will also be allowed at lunch however this should be monitored</p> | | | | |
| 5. Risk of coronavirus infection spreading to children and staff due to lack of PPE | Face covering when risk assessment confident and public transport recommendations. Read the guidance on safe working in education, childcare and children's social care for more information about preventing and controlling infection, including when, how PPE should be used, what type of PPE to use, and how to source it. | | <p>FPS Action:</p> <ul style="list-style-type: none"> • PPE is available for all to use in first aid areas, quarantine areas, toileting areas and if requested. • Instructional video emailed to staff. • All staff aware of RA and its content. All staff to follow all advice within this document - control measures & actions • Staff should wear masks in communal areas but not outdoors | | |
| 6. Failure to use test and trace leading coronavirus infection spreading | Schools only needed to do contact tracing up to and including 18 July. Close contacts will now be identified via NHS Test and Trace and education settings will no longer be expected to undertake contact tracing. | | <p>FPS Action:</p> <ul style="list-style-type: none"> • School to support Test and Trace if required | | |

| HAZARDS (including inadequate / lack of arrangements) | EXISTING CONTROL MEASURES | <input type="checkbox"/> if in place <input checked="" type="checkbox"/> if not | IF 'X' STATE THE ACTION TO BE TAKEN WITH TIMESCALES OR INDICATE ANY ADDITIONAL CONTROL MEASURES | RESIDUAL RISK RATING High, Medium, Low | |
| to children and staff | <p>As with positive cases in any other setting, NHS Test and Trace will work with the positive case and/or their parent to identify close contacts. Contacts from a school setting will only be traced by NHS Test and Trace where the positive case and/or their parent specifically identifies the individual as being a close contact. This is likely to be a small number of individuals who would be most at risk of contracting COVID-19 due to the nature of the close contact. You may be contacted in exceptional cases to help with identifying close contacts, as currently happens in managing other infectious diseases.</p> <p>Individuals are not required to self-isolate if they live in the same household as someone with COVID-19, or are a close contact of someone with COVID-19, and any of the following apply:</p> <ul style="list-style-type: none"> ● they are fully vaccinated ● they are below the age of 18 years and 6 months ● they have taken part in or are currently part of an approved COVID-19 vaccine trial ● they are not able to get vaccinated for medical reasons <p>Instead, they will be contacted by NHS Test and Trace, informed they have been in close contact with a positive case and advised to take a <u>PCR test</u>. We would encourage all individuals to take a PCR test if advised to do so.</p> <p>Staff who do not need to isolate, and children and young people aged under 18 years 6 months who usually attend school, and have been identified as a close contact, should continue to attend school as normal. They do not need to wear a face covering within the school,</p> | | | | |
