

Let's make an igloo!

Fun in Foundation
Stage
January 2017

We have been finding out about the Inuit people and found out that they build igloos out of blocks of snow. We were challenged to create our own igloos....

White chalk on boxes...

We used bricks..

Testing out the inside of the igloo.
Can you fit in it?

Working together as a team gets the work done!

We're nearly there!

How high
can you
build your
igloo?

Meanwhile, in the Winter Garden...

Good work boys!

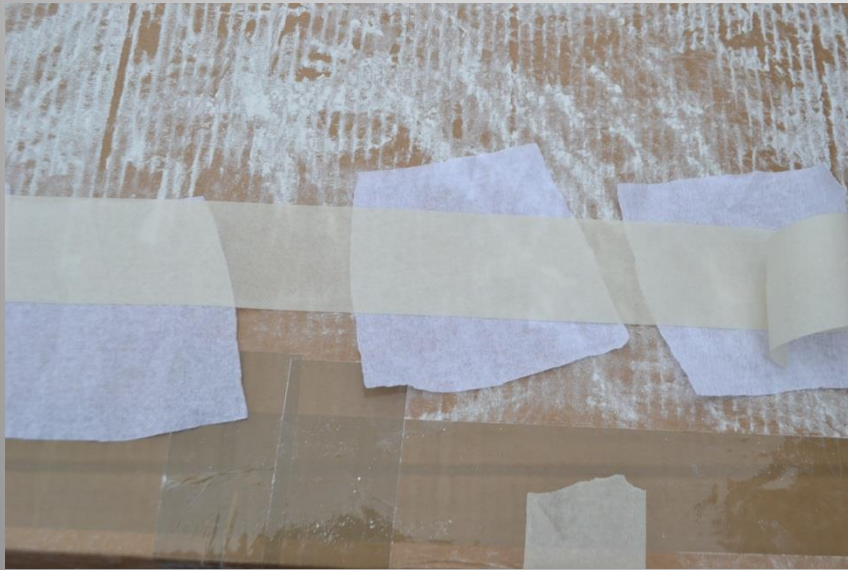

Getting
higher
and
higher!

Masking
tape and
crepe paper
is a good
idea Ethan!

A fabulous design!

Still working
hard to
finish her
igloo...
nearly there!

You must
wrap up
warm in
the Arctic!

The boys decided to add in a chimney to their igloo...
