Forest
School

“Forest School is an inspirational process, that offers all learners regular opportunities to achieve and develop confidence and self-esteem, through hands on learning experiences in a natural environment.”

“We will teach children to value themselves as individuals, and those around them, equipping them with skills to develop personally and socially, managing their behaviours, emotions, successes and failures, all the while reflecting on their learning experiences”.

Here at forest school we learn
through experiencing the world
in the great outdoors...

We **build** independence, self-confidence, self-esteem and motivation...

We build...

We celebrate our successes and failures...managing our feelings and behaviour...

We celebrate...

We develop our communication and language skills...expressing our own ideas, feelings and opinions...

We develop...

We improve our physical awareness and concentration, working on our practical skills...

We improve...

We discover how we learn best and take control of our own learning, reflecting on our progress...

We discover...

We explore connections between ourselves and the world we live in...

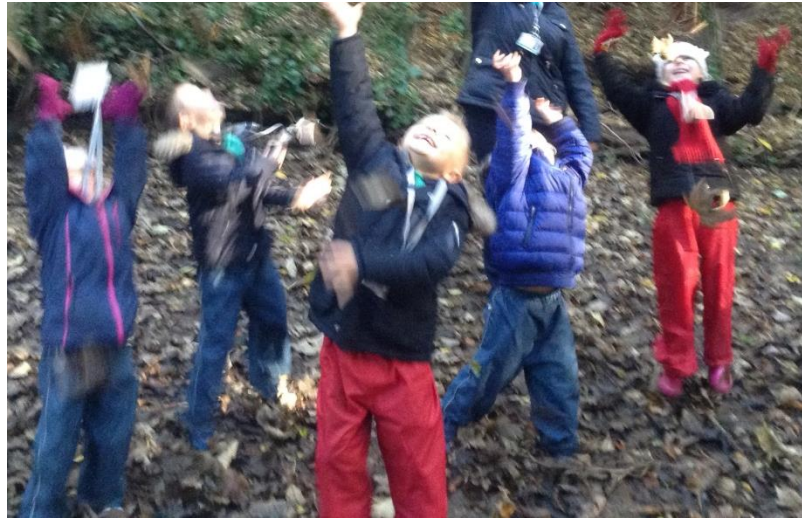

We explore...

**Build, celebrate,
develop, improve,
discover, explore...**

Be the Best you can Be!
