

Week beginning 25th September 2017.

Happy Days

The children have been working hard this week. They have begun to complete morning activities as they arrive at school in the morning; practising number formation, writing their names, sketching pictures, all of which help improve their pencil control.

We have been singing 'head, shoulders, knees and toes' and naming some body parts. In Maths they have been identifying numerals and counting out spots onto our poorly patients.

Can we please ask that **ALL of your child's clothes are named**, not just their jumpers/cardigans. When they get changed for PE it gets very confusing, for the children and staff alike, if they are not.
