

Tell the  
World about...

People Who  
Help Us!

We had lots of nurses to look after us in our hospital during our 'Wow Day'.

They even gave injections!

We had lots of Doctors too.

They had to listen to their patient's chest and look carefully for broken bones on our x-rays!

We also had helpful builders, kind police officers...

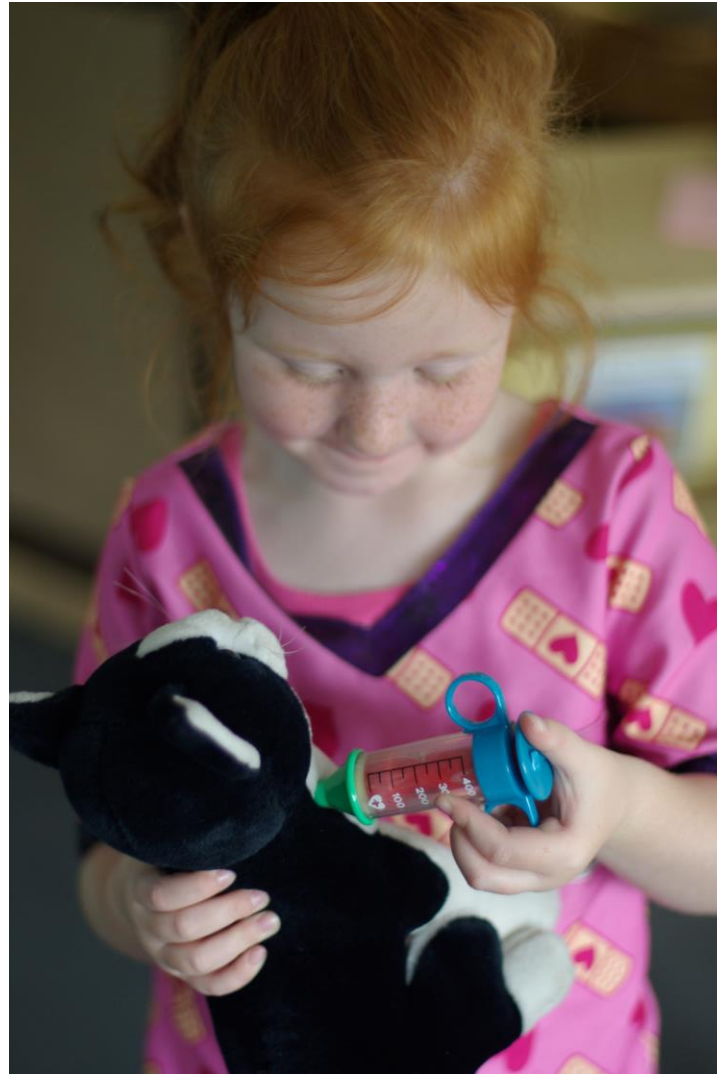

...lots of very brave firefighters...

...handy mechanics, brave soldiers...

...and a very gentle vet.

*A great day!*
