

Week beginning 13th November 2017.

It's an emergency!

This week has taken us on journeys in our fire engines. We have looked at local landmarks and used lots of language to explore direction, such as around, past, under and over. We have continued to encourage the children to have a go at writing their names, something that would also be great to do at home, and practise their number formation.

For everyone involved in the Nativity, we are busy learning songs and practising on the stage. If your child was sent home with a highlighted sentence on a script can you please help them to learn this at home. Everyone was also given a song sheet so that the children could practise singing too. We'd really appreciate your support with this in order to make it a performance to remember!
