

After reading the story of
The Three Little Pigs
some of the Foundation Stage
children thought that they
would have a go at building
their own house outside.

And so the building begins...

Everyone got involved in our house building.

Great teamwork!

How strong are those walls?

Can we 'huff and puff' and
blow them down?

What a fabulous chimney!

Oh no! Those walls are starting to look very wobbly!

We know that
the walls of
our school
are very
strong.

How were
they built so
that they
don't fall
down?

Let's look at
the pattern.

This is how you
do it! Well
done Leo.

It turns out that
you are a great
teacher too!

Fabulous building work. The wall got even higher... before it was knocked down!
