

**The Three  
Bears'  
Kitchen**

First of all Gracie and Charlie went searching for three chairs for the three bears kitchen. Gracie measured the smallest stool against a chair to see if it was the right size for Mummy Bear.

Charlie then found a chair for Daddy Bear. They put them in order to make sure that they were just the right size for the three bears.

What's next?

Time to find the bowls. We remembered that we needed 3 so went searching. We found a huge bowl and a tiny bowl first.

Then we found a good middle-sized bowl and made sure we could put them in the right order.

We also matched the right sized bowl to the right sized chair. It would be no good if Daddy Bear got a tiny bowl of porridge!

The first two spoons that Esmail found were the same size, which was no good! We ended up hunting in the teacher's kitchen to see what we could find. Archie found an enormous spoon, Kian found a tiny one. Well done, good team work.

Lillie found a tiny bear and a middle-sized bear. We then made sure that the three bears were sitting on the right chair.

The three bears are all ready for their porridge to be cooked. They have all got the right sized bowl, spoon and chair. Great work from everyone who helped. Thank you!

A child's play kitchen set on a grey floor. A table covered with a colorful plaid cloth holds three wooden bowls filled with oatmeal. A yellow toy oven is in the background. A teddy bear sits on a black plastic chair to the right. Another teddy bear is on a wooden board in the foreground. Three speech bubbles are overlaid on the image.

Mmm, my porridge is just right!

My porridge is delicious.

I'm going to eat all of mine up.
