

Hull Fair Week 2018

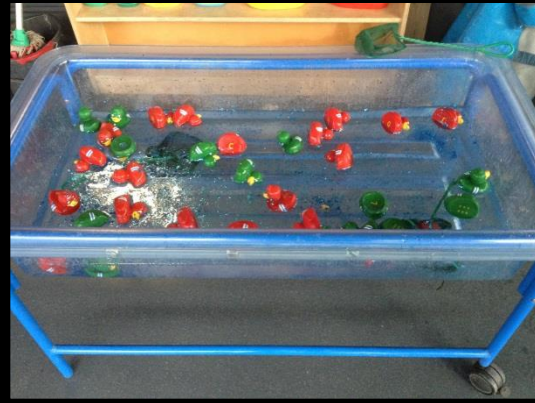

Foundation Stage

Roll up! Roll up to Christopher Pickering's very own Hull Fair.

We are all set up and ready for some Hull Fair fun.

A fantastic rollercoaster track gets started.

This book has great pictures in
of how rides work and move.

Our reporters went to find out about the fair. They found where all the people who work there live.

Our reporters were too short for some of the rides. Some loved the look of all the rides, some thought the ghost train looked too scary.

They hunted for numbers.

The children explored the food stalls and came back with some ideas of what we could do.

The children all made their own chocolate apple. When they had finished they ordered what they had done. Great work!

We loved everything to do with the fair and can't wait until it comes back again next year!
