

Today we've been out adventuring! We went out to see the different types of homes that people live in around our school area. The children were in charge of taking photographs of what we saw!

Daisy spotted the shape of these windows and the swirls on the fence.

Rebecca G took a photograph of this little pointy window.

Lilly spotted the tower blocks. Lots and lots of people live in there in flats.

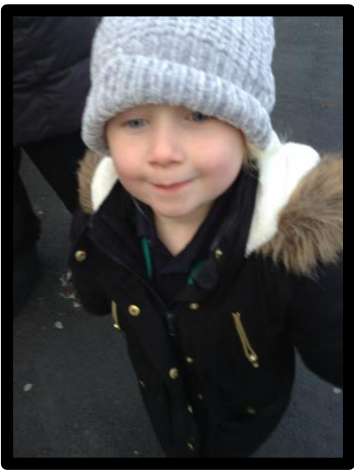

Cael took a photograph of where the pub used to be. We wonder what will be built there next!

Alana saw that all of these houses were fixed together. She spotted a tunnel between them so that people can go in their gardens.

Can you see our school peeping between the houses?

Penelope took all of these photos.
The letter box is built of brick!

Look at these two pointy windows.

Can you believe it, we saw a digger! The man was digging up a driveway. Great picture Nellie.

This house had a really long driveway. Simon took a photo of it. There are two houses joined together.

A house on top of a shop! Well fancy that! We found the doors and stairs so that you can get inside.

Hannah spotted these new houses. They are so new that no one lives in them yet!

Tommy saw this house. The windows have got diamonds on and the little window is a triangle shape! Well spotted Tommy!

The new houses have got windows in the roof. We think you will have to climb a lot of stairs!
