

Week beginning 28th January 2019.

# This week in FS!

Another busy week for the children in Foundation Stage. In Maths the children have been learning all about height and weight- working out the difference between tall and small. We had fun finding out who is the tallest and smallest in our class! We also talked about weight such as 'heavy' and 'light'.

In literacy the children were able to describe the characters and the different houses in the story of The three little pigs and used their phonic knowledge to sound out the words.

The children have all been excited about the snow this week, We talked about how we keep warm in Winter and what clothes we need to wear!
