

Plans have been made to build a new foot-bridge across Clive Sullivan Way. This is what it will look like...

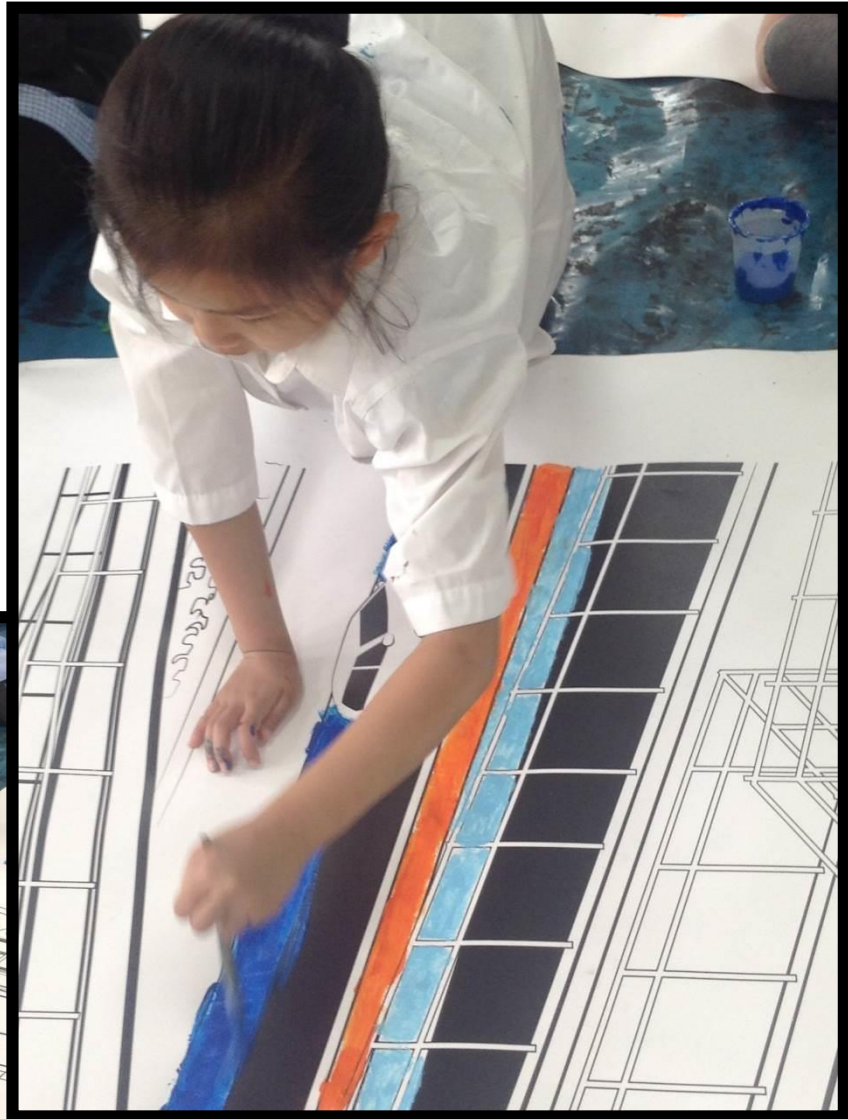

The building company sent us some pictures to decorate. They will create hoarding panels with them to use whilst the building work takes place.

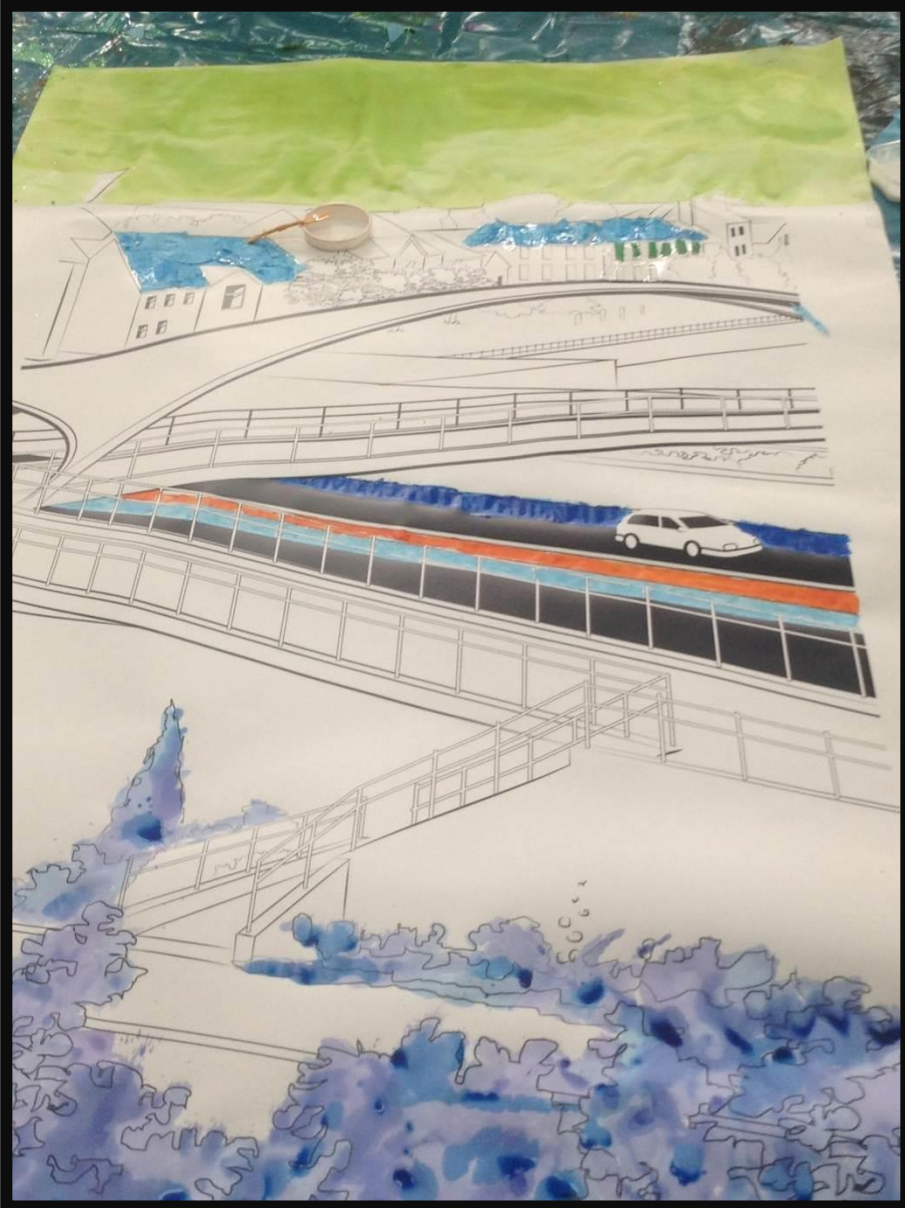

The only specification given was that the builders didn't want us to use the environment's natural colours. So our artists got started by painting the sky green.

Great teamwork!

Lots of hard work
but great fun.

The foliage was built up by layering PVA glue, watercolours and acrylic paint in blues and purple.

All three panels are finished.
Well done everyone.
We can't wait to see them in Hull.
