

This week F2 went on a mini trip to Build a Bear to make their class home bears. Let's take a look at what they got up to.

BUILD-A-BEAR WORKSHOP

We walked from school to the bus stop. We were very patient waiting for the bus. We took turns guessing what number the bus would be.

The number 66 bus came, so we put our arm out for the bus to stop and pick us up.

We sat on the top deck. Mrs Wilkinson was really proud because we sat so nicely.

BUILD-A-BEAR WORKSHOP

When we got to Build a Bear, we had to choose our bears. Charlie said they were 'floppy' and that they needed 'fluffing up'

So we went to the 'fluff machine' and Rob helped us to fill up our teddies.

We took it in turns to press the peddle on the fluff machine, until the teddies were soft and cuddly.

BUILD-A-BEAR WORKSHOP

Next we had to choose a heart for our bears.

We had to pat and rub it to make it start beating. We had to rub it on our cheek to make it warm. We had to rub it on our head to make the bear smart. We waved it to catch the magic in the air, then made a wish on it. And finally, kissed it to show the bear we loved it.

After all of this, we put the hearts in the bear. Then, Rob sewed them in to keep them safe.

BUILD-A-BEAR WORKSHOP

After the bears were all full, had their hearts in and were sewn up, we took them for a 'bath'.

We pressed the peddle to work the blowers and brushed the bears fur to make it fluffy. The blowers were very noisy.

It was then time to dress the bears. There were so many different outfits, we didn't know how to choose.

Finally we chose a blue and white T-Shirt.

Once we had dressed the bears, it was time to choose their names and make their birth certificates on this computer.

We chose 'Sweets' for Mrs Wilkinson's class bear and 'Jeffrey' for Mrs Silverwood's class bear.

Finally it was time to pay. We helped Rob work out how much each bear cost.

Rob put the bears in a special box for us to bring them back to school safely.

We had a great time at Build a Bear making our bears.

I liked putting his T-shirt on.

My favourite part was brushing it.

I liked sitting on the top of the bus

I liked making a wish on his heart
