

Week beginning 2nd December 2019.

This week in FS!

On Monday morning when the children arrived at school we had something special waiting in our classrooms. We had advent calendars as it is now December and each day someone is chosen to get a chocolate from the calendar!

In Maths this week we have started learning all about patterns using two colours, and sometimes three colours! During continuous provision, the children have been working hard to make patterns all around the classroom.

We have been working hard to make our Christmas cards! We have also been practising for our Nativity and finished getting everybody's costumes ready.
