

Our FS lunchtime art club is going well. We started off making boxcraft dinosaurs, it was serious work and the boys had to really concentrate. Great work boys!

Today we started off by painting a dinosaur each. The boys then got very creative; adding glitter, cotton wool, polystyrene and feathers to their masterpieces to make some fabulous creations.

We had lots of chat about the dinosaurs. This was a pterodactyl! Can you see it's 'funny face'? It has two eyes and a mouth.

We're looking forward to our next session together.
