

# Strange Shapes

Can you make a caterpillar with a different shaped body?

I've used different shapes to make his body, you could too. You could draw it on the computer like I have or draw it on a piece of paper.

Don't forget to talk to the people in your house about the shapes you have used. You could talk about how many sides and corners the shapes have.

Send us your pictures on tapestry, we love to see them.

Mrs Wilkinson 😊
