

Week beginning 19th October 2020.

Autumn!

This week the children have learnt all about Autumn. They have talked about the signs of Autumn; how the leaves on the trees start to change colour and fall, and how some animals get ready to hibernate or migrate to other countries.

We have continued to learn all about the number 2, including different ways to make the total of 2. Some great work. They have also been trying hard to use positional language again. The children have been working on how to use full sentences when they answer questions and talk to others.

Our Autumn Day has been a great success. The children have worked on developing their fine motor skills as they have iced gingerbread men biscuits! The results were very tasty!

Have a happy and healthy half term!
