

Week beginning 12<sup>th</sup> April 2021.

# Chick, chick, chick, chick, chicken

Our first week back after the holidays has gone really well and the children have settled back down into our routines with ease.

We had a visitor at the beginning of the week. He was called 'Grandad Chicken'! He told us all about hens and how they lay eggs. He even brought us 21 eggs to keep in an incubator in school until they hatch.

In Maths we have been learning all about the number 10, focusing mainly on pairs of numbers that make 10.

We had some more visitors on Wednesday too! They brought lots of balance bikes with them. It was brilliant fun. We can't wait for them to come again next week.
