

Week beginning 3rd May 2021.

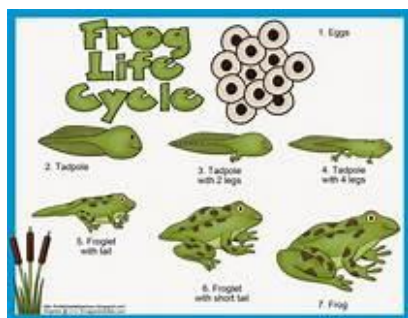

5 Little Speckled Frogs!

Well we haven't got 5 little speckled frogs yet but we have got a tank full of tadpoles!

The children have been fascinated watching them swim

and eat their boiled cucumber!

Unfortunately they had already hatched from the eggs (frogspawn) before we could get them into school.

It's still been very exciting though and we are going to

keep watching to see how they grow. The children have been encouraged to draw them, paint them, make frog models out of play dough, read books and write about them. A great week of learning.

In Maths we have been continuing to explore teen numbers, with great results.

Date : Next Thursday (13th May) children to wear 'gardening' clothes to school!
