

Saying goodbye to the chicks.

As the chicks were leaving, we spoke about where they might end up, and what these extra arrows on the life cycle meant. Incredibly, a lot of children knew that they might turn into food, and all the children were very accepting of it.

We then spoke about eating eggs and that not all eggs hatch into chicks, or other birds. ?

This gave us an idea...

We did an experiment with some eggs. We discussed how the egg changes when it is heated. We also discussed how this was an irreversible change. We ended up with scrambled eggs.

The children used these great words during the discussions...

Crack
Melt
Springy
Soft
Hot
Cooking
Runny
Yummy

Why not ask your child if they can think of any others.

One final snuggle
