

F2
Gardening
Day

The sun was shining and our wellies were on, but what a lot of work needed to be done! Our flower beds needed weeding, saplings needed moving, there was so much preparation that a lot of hard work was needed.

However, the children were keen and ready to get to work. Stanley did a great job at helping to replant the sapling that had grown in one of the beds. Gracie-Mai was on hand to take photos!

Arriea's team found a really big snail. It was brilliant to watch but unfortunately it had been eating lots of our plants! However, we put him back where we found him. We are just going to sprinkle egg shells around the plants to stop him from eating them all though.

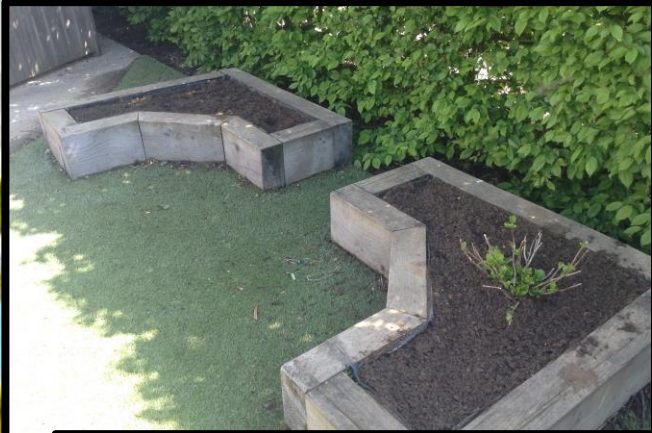

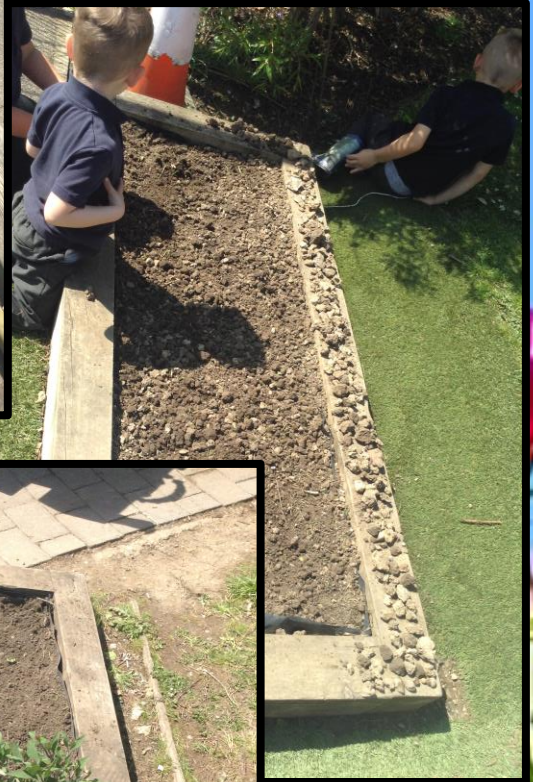

Everyone was busy...

...well almost everyone!

It had been a very productive morning. All the beds were clear, dug over and ready for planting.

After lunch
it was time
to get
planting!
And
watering, of
course...

Photographs courtesy of Payton and Vivienne.

Mrs Hoskin's team were in charge of planting the bean seeds. They did a brilliant job. They also planted some pretty Lobelia to make the bed look lovely until the beans grow.

The 'seed bomb gang' did a super job too. Fingers crossed they all grow!

It was a brilliant day, well done everyone!
