

Week beginning 24th May 2021.

This week in Foundation Stage...

This week we have been learning all about how we can help to keep our world 'healthy'. The children have been exploring materials, learnt about recycling and have even had a go at 'upcycling' objects to create some inventive new products.

In line with all of this we have introduced the children to the legend that is Sir David Attenborough! They have learnt some simple facts about him and found out about how important he has been in helping us learn about the world and what it needs to survive.

Have a happy and safe half term everyone! Remember that it is Farmer Day on Tuesday of the first week back.
