

Week beginning 7th June 2021.

Where does our food come from?

Well we started the week by introducing our new text, *The Enormous Turnip*, which the children love. They have already identified the characters in the story, where it is set and the problems and solution within it. They have helped to retell parts of the story, adding actions to help them remember it. They have also ordered the main events in the story as a team and created story maps! What a busy week! The children have also been learning all about farms and where our food comes from. They know that vegetables are grown and really enjoyed

making and tasting vegetable soup (well most of them!). In Maths they have been exploring the size of objects, ordering them and using the appropriate language. They have also done really well at learning to count in 2s! Have a happy weekend
