

Week beginning 7th June 2021

What the ladybird heard....

This week we have started our new topic, all about farms. We are reading the story 'What the Ladybird Heard' by Julian Donaldson.

We have had a focus on cows this week. We have been learning about cows milk products, what cows eat, and their offspring. We have found it very interesting.

Next week, we will be having a focus week on sheep. We are looking forward to learning all about this animal.

In maths we have been using a 5 frame to represent numbers and understand adding more and taking away. We are so impressed with the children's understanding of number.

We have continued with our Read Write Inc phonics for the school starters to embed the sounds we have learnt.
