

Week beginning 21st June 2021.

Such a busy week!

It's astounding how much we have managed to cram into this week! As it has been Sports Week, we have linked some of our topic work and learnt about the fastest man on earth; Usain Bolt! In Maths we have been learning about length and height. The children have done some super measuring, including seeing how far they could jump from two feet. It was great fun. Sports Day was a great success too. It was such a shame that parents couldn't watch but the children loved it none the less and all tried so very hard. In English the children have read a new book by Julia Donaldson, called A Squash and A Squeeze, which they really enjoyed. In the rest of our topic work we have continued to learn about farm animals. The children have also taken inspiration from our beautiful English countryside and the artist Paul Klee and created some beautiful 'fields' by mixing various shades of green. They look very striking.
