

# *F2 as Artists*

F2 have been learning about farms. As part of this topic we have looked at photographs of our beautiful British countryside. We have talked about the shapes of the fields and the many, many green colours that we can see.

We looked at the work of an artist called Paul Klee. We saw all the shapes in his paintings, there were so many squares and rectangles.

His 'green' pictures reminded us of our countryside and the shapes of the fields that we could see.

But what a disaster!  
We didn't have any  
green paint! What on  
earth could we do?

Then we had an  
idea...

Blue and yellow make  
green!

Look at all the  
different greens we  
could make. The  
children got busy  
painting their 'fields'  
inspired by Paul Klee.

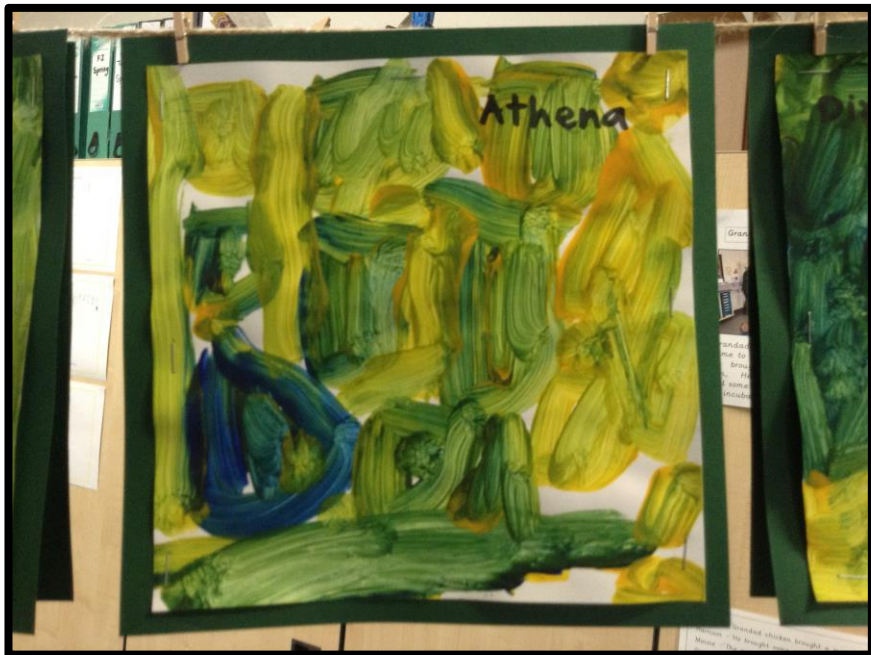

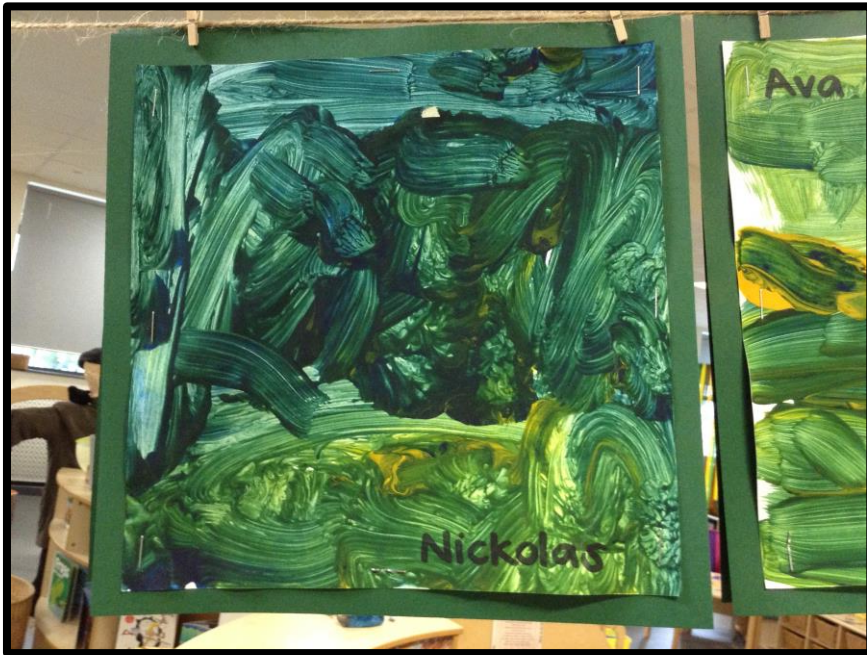

Making the different green colours was very exciting! Our masterpieces were amazing.

Each child's work was unique. Each of them were beautiful.

What wonderful artists they are all becoming!
