

Week beginning 10th January 2022.

This week in FI...

This week the children have been learning all about the story 'The Jolly Postman and Other People's Letters'. In 'Stories for Talking' the children have been able to recognise the key nouns in the story by identifying the objects out of the story stack.

In Maths this week the children have been learning all about volume. We have filled different sized cups with water and sand to identify which cup holds the most and which cup holds the least. The children have also been learning the song '5 little letters' for their Maths song this week.

During continuous provision the children have been thinking of ways to help the Jolly Postman deliver his letters faster. We made different ramps for the Postman's van to travel down which made him go faster.

Next week we will be looking at different types of houses. We will be going on a walk around the school site to see if we can spot any houses and talk about what they look like. Please could you upload a photo onto Tapestry of a familiar house to your child. For example this could be their own house, their grandparents house or a friends house. We will be looking at these and discussing them with the children next week.
